**NATIONAL AERONAUTICS AND
 SPACE ADMINISTRATION**

Notice (00-092)

**Conduct of Employees, Notice of
 Waiver Pursuant to Section 207(j)(5),
 Title 18, United States Code**

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice.

SUMMARY: The Administrator of the National Aeronautics and Space Administration has determined, after consultation with the Director of the Office of Government Ethics, that it is in the national interest to waive the post-employment restrictions of Section 207, Title 18, United States Code, with respect to the former Deputy Director for Launch and Payload Processing, at Kennedy Space Center, Loren Shriver.

FOR FURTHER INFORMATION CONTACT: R. Andrew Falcon, Office of the General Counsel, NASA Headquarters, Washington, DC 20546, 202-358-2028.

SUPPLEMENTARY INFORMATION: Section 207(j)(5) of Title 18 of the United States Code authorizes the Administrator of the National Aeronautics and Space Administration to waive the post-employment restrictions of subsections 207(a)(1), 207(a)(2), and 207(c), to permit a former employee with outstanding qualifications in a scientific, technological, or other technical discipline to make appearances before or communications to the Government in connection with a particular matter which requires such qualifications, where it has been determined that the national interest would be served by the participation of the former employee.

It has been established to my satisfaction that Loren Shriver, the former Deputy Director for Launch and Payload Processing at Kennedy Space Center, has outstanding technological qualifications in mission control, launch processing, and flight operations. Mr. Shriver has unique experience in the areas of Space Shuttle operations and launch integration. In his most recent position and as Space Shuttle Program Manager, Launch Integration, he acquired unique knowledge of flight hardware integration, test, and check out, and established the current standard technical determinations that are required to establish flight readiness. He headed the Program Requirements Control Board, which meets daily to enable NASA, the prime contractors, and subcontractors to resolve pre-flight anomalies related to orbiter and payload processing. In addition to his experience

in Space Shuttle processing and launch, Mr. Shriver has expert knowledge of the Space Shuttle vehicle systems, flight hardware, mission integration and mission execution gained through his 15 years of service as a Space Shuttle astronaut, mission commander, and Deputy Chief of the Astronaut Office. I am satisfied that, as the Deputy Program Manager for Operations for the United Space Flight Operations Contract, NAS 9-20000, he will be required to utilize these qualifications in the performance of his duties with respect to the processing and launch of the Space Shuttle and related systems, and that it will be in the national interest to permit him to appear before and communicate with Government officials on these matters.

Therefore, after consultation with the Office of Government Ethics, I have waived the post-employment prohibitions of subsections 207(a)(1), 207(a)(2), and 207(c) of Title 18 of the United States Code in order to permit direct communications between Mr. Shriver and employees of NASA and other Government agencies with respect to space flight activities.

Dated: July 27, 2000.

Daniel S. Goldin,

NASA Administrator.

**NUCLEAR REGULATORY
 COMMISSION**

[Docket Nos. 50-338 and 50-339]

**Virginia Electric and Power Company;
 Notice of Withdrawal of Application for
 Amendment to Facility Operating
 License**

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Virginia Electric and Power Company to withdraw its May 3, 1999, application, as supplemented March 16, 2000, for proposed amendment to Facility Operating License Numbers NPF-4 and NPF-7, for the North Anna Power Station, Units 1 and 2, located in Louisa County, Virginia.

The proposed amendment would have revised the Technical Specifications to ensure the emergency ventilation system is maintained operable consistent with the assumptions in the radiological dose consequences re-analysis from a large break loss-of-coolant accident, and to clearly identify that the ventilation

system is a shared system between the two units.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on June 16, 1999 (64 FR 32291). However, by letter dated July 25, 2000, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated May 3, 1999, supplement dated March 16, 2000, and the licensee's letter dated July 25, 2000, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 28th day of July 2000.

For the Nuclear Regulatory Commission.

Project Manager, Section 1, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

OFFICE OF PERSONNEL MANAGEMENT

Proposed Collection; Comment Request for Review of a Revised Information Collection: Forms RI 20-7 and RI 30-3

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget a request for review of a revised information collection. RI 20-7, Representative Payee Application, is used by the Civil Service Retirement System (CSRS) and the Federal Employees' Retirement System (FERS) to collect information from persons applying to be fiduciaries for annuitants

or survivor annuitants who appear to be incapable of handling their own funds or for minor children. RI 30-3, Information Necessary for a Competency Determination, collects medical information regarding the annuitant's competency for OPM's use in evaluating the annuitant's condition.

Comments are particularly invited on: whether this information is necessary for the proper performance of functions of OPM, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Approximately 12,480 RI 20-7 forms will be completed annually. Each form requires approximately 30 minutes to complete. The annual burden is 6,240 hours. Approximately 250 RI 30-3 forms will be completed annually. Each form requires approximately 1 hour to complete. The total annual burden is 6,490.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606-8358, or E-mail to mbtoomey@opm.gov
