The site is 13 miles from the Canadian border, 14 miles from the Idaho border, and 90 miles north of the city of Spokane, WA. The existing Box Canyon Project consists of: (1) 46-foot-high, 160-foot-long reinforced concrete dam with integral spillway, (2) 217-foot-long, 35-foot-diameter diversion tunnel, (3) 1,170-foot-long forebay channel, (4) auxiliary spillway, (5) powerhouse containing four generating units with a combined capacity of 72 MW, (6) 8,850-acre reservoir at maximum operating pool elevation of 2030.6 feet, and other associated facilities. PUD No. 1 operates the project in a run-of-river mode.

PUD No. 1 proposes to upgrade all four turbines with new high efficiency, fish-friendly runners and to rewind the four generators to increase generating capacity to 90 MW. No new structures will be built and no construction in the river will be required. Scoping Process

The Commission intends to prepare an Environmental Impact Statement (EIS) for the proposed relicensing of the Box Canyon Hydroelectric Project (FERC No. 2042-013). The EIS will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

Scoping Meeting

In addition to the two scoping meetings on August 14th and August 16th identified in the July 14, 2000 Notice, a third meeting will be held at 9:00 am on August 17, 2000 in the Kalispel Tribal Council Chambers at 1981 North Le Clair St, Usk, WA. This meeting will focus on the concerns of the Kalispel Tribe to assist the staff in identifying the scope of the environmental issues that should be analyzed in the EIS.

To facilitate discussions, a Scoping Document (SDI) outlining the subject areas to be addressed in the EIS, was previously distributed to parties on the Commission's mailing list.

Objectives

At this meeting, the staff will: (1) Summarize the environmental issues tentatively identified for analysis in the EIS; (2) solicit from the participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from interested parties on issues that should be analyzed in the EIS, including viewpoints in opposition to, or in support of, the staff's preliminary views; (4) determine the resource issues to be addressed in the EIS; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

Procedures

If you are interested in attending this meeting, please contact Leslie Smythe at (781) 444-3331 ext. 481 before August 15, 2000.

Proposed CERCLA Section 122(h) Administrative Agreement for Recovery of Past Costs for the Genzale Plating Superfund Site, Franklin Square, Nassau County, NY

AGENCY: Environmental Protection Agency.

ACTION: Notice; request for public comment.

SUMMARY: In accordance with section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42

U.S.C. 9622(i), notice is hereby given by the U.S. Environmental Protection Agency ("EPA"), Region II, of a proposed administrative agreement pursuant to section 122(h) of CERCLA, 42 U.S.C. 9622(h), for recovery of past response costs concerning the Genzale Plating Superfund Site ("Site") located in Franklin Square, Nassau County, New York, with three parties: M. Genzale Plating Company, Inc. ("Genzale"), Michael J. Genzale, and Michael F. Genzale. The agreement is an "ability to pay" settlement. Under the settlement, respondents, who are closing the business at the Site, agree to sell the facility property and convey the net proceeds of the sale into an escrow account. They also agree to pay \$505,000 into the escrow account, which is to be used for, *inter alia*, environmental expenses attendant to properly shutting the business' facility. The remaining funds in the escrow account will be paid to the United States. Because the price of the property and the amount of expenses are not currently known, the ultimate amount which the United States will receive from the settlement is also not known, but is likely to exceed \$500,000. For thirty (30) days following the date of publication of this notice, EPA will receive written comments relating to the settlement. EPA will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations that indicate that the proposed settlement is inappropriate, improper, or inadequate. EPA's response to any comments received will be available for public inspection at the EPA, Region II, 290 Broadway, New York, New York 10007-1866.

DATES: Comments must be submitted on or before September 11, 2000.

ADDRESSES: The proposed settlement is available for public inspection at the EPA, 290 Broadway, New York, New York 10007-1866. Comments should reference the Genzale Plating Superfund Site located in Franklin Square, Nassau County, New York, Docket No. CERCLA-02-2000-2010. A copy of the proposed settlement may be obtained from the individual listed below.
