

public meeting of the Reef Fish Stock Assessment Panel (RFSAP).

DATES: This meeting will begin at 9:00 a.m. on Monday, August 28, and conclude by 3:00 p.m. on Friday, September 1, 2000.

ADDRESSES: The meeting will be held at NMFS Southeast Fisheries Science Center, 75 Virginia Beach Drive, Miami, FL.

FOR FURTHER INFORMATION CONTACT: Steven Atran, Population Dynamics Statistician, Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619; telephone: 813-228-2815.

SUPPLEMENTARY INFORMATION: The RFSAP will convene to review the following information provided by NMFS:

1. 2000 Greater amberjack stock assessment
2. 2000 Update to the 1998 vermilion snapper stock assessment
3. 1999 Red grouper stock assessment with corrected tables
4. Draft red snapper restoration scenario
5. Microsoft Excel spreadsheet for calculating biological targets and thresholds for groupers and tilefish

Based on its review of the greater amberjack and red grouper stock assessments, and the vermilion snapper assessment update, the RFSAP may recommend a range of allowable biological catch (ABC) for 2001 for each stock, and may recommend management measures to achieve the ABC. In the NMFS October 1999 Report to Congress on the Status of Fisheries of the United States, the greater amberjack stock was classified as not overfished, based on the previous stock assessment in 1996. However, there were concerns that the sampling program had excluded older and larger fish, making the results of that assessment questionable. The red grouper stock was classified as status unknown due to problems discovered with the age and growth data used in the 1993 assessment. A new assessment in 1999, initially reviewed by the RFSAP in the Fall of 1999, indicated that the red grouper stock was overfished. However, the Council's Standing and Special Reef Fish Scientific and Statistical Committee (SSC) had a number of concerns about the data and methods used by NMFS. The NMFS response to the SSC concerns will be part of the RFSAP's reevaluation of the 1999 red grouper assessment. The vermilion snapper stock was classified as not overfished based on a 1998 assessment, but some model scenarios from the assessment suggested that the stock was being

fished at a rate that could result in it becoming overfished. It was therefore classified by NMFS as approaching an overfished condition.

The RFSAP will also review a draft red snapper restoration scenario proposed by NMFS, which would allow for a transition from a constant annual catch strategy to a constant fishing mortality rate strategy, and would provide for reevaluation of the stock at five-year intervals. The RFSAP will also review a method developed by NMFS, using a Microsoft Excel spreadsheet, for determining management targets and thresholds for groupers and tilefish based on the technical guidance recommended by NMFS for compliance with the Sustainable Fisheries Act of 1996. The resulting RFSAP recommendations will be presented to the Council's Socioeconomic Panel, Reef Fish Advisory Panel, and SSC, and to the Council at its November 13-16, 2000 meeting in Biloxi, MS.

The RFSAP is composed of biologists who are trained in the specialized field of population dynamics. They advise the Council on the status of stocks and, when necessary, recommend a level of ABC needed to prevent overfishing or to effect a recovery of an overfished stock. They may also recommend catch restrictions needed to attain management goals.

Although other non-emergency issues not on the agendas may come before the RFSAP for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during these meetings. Actions of the RFSAP will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at the Council (see **ADDRESSES**) by August 21, 2000.

Dated: August 7, 2000.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

[I.D. 080800D]

New England Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Habitat Committee in September, 2000. Recommendations from the committee will be brought to the full Council for formal consideration and action, if appropriate.

DATES: The meeting will be held on Thursday, September 7, 2000, at 9:30 a.m.

ADDRESSES: The meeting will be held at the Holiday Inn, 31 Hampshire Street, Mansfield, MA; telephone: (508) 339-2200.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council; (978) 465-0492.

SUPPLEMENTARY INFORMATION: The committee will continue its discussion of habitat issues related to the development of Amendments 10 and 13 to the Sea Scallop and Groundfish Fishery FMP's, respectively. The committee will also discuss the priorities for the 2001 Habitat Annual Review Report and discuss a report by the Atlantic States Marine Fisheries Commission on fishing gear impacts to submerged aquatic vegetation.

Although non-emergency issues not contained in this agenda may come before this Council for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul

J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting dates.

Dated: August 8, 2000.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

New England Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council (NEFMC) is scheduling a public meeting of its Mid-Atlantic Fishery Management Council (MAFMC) Plans Committee in September, 2000. Recommendations from the committee will be brought to the full Council for formal consideration and action, if appropriate.

DATES: The meeting will held on Wednesday, September 6, 2000, at 9:30 a.m.

ADDRESSES: The meeting will be held at the Holiday Inn, 31 Hampshire Street, Mansfield, MA; telephone: (508) 339-2200.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council; (978) 465-0492.

SUPPLEMENTARY INFORMATION: The committee will review and discuss current developments of the MAFMC, as they relate to NEFMC concerns and fisheries. The committee will also receive an update on specifications proposed by the MAFMC for the 2001 fishing year.

Although non-emergency issues not contained in this agenda may come before this Council for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been

notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting dates.

Dated: August 8, 2000.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[I.D. 080400D]

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of committee meetings.

SUMMARY: The North Pacific Fishery Management Council's (NPFMC) Halibut Subsistence Committee will meet in Anchorage, AK.

DATES: The meeting will be held on September 7, 2000.

ADDRESSES: The meeting will be held at the Anchorage Sheraton Hotel, 401 E. 6th Avenue, Anchorage, AK.

Council address: North Pacific Fishery Management Council, 605 W. 4th Ave., Suite 306, Anchorage, AK 99501-2252.

FOR FURTHER INFORMATION CONTACT: Jane DiCosimo, NPFMC, 907-271-2809.

SUPPLEMENTARY INFORMATION: The meeting will begin at 9:00 a.m. on Thursday, September 7, in the Executive Board Room at the Sheraton Anchorage Hotel, and conclude at noon. The committee will review a draft of the halibut subsistence analysis and provide recommendations for final Council action in October.

Although non-emergency issues not contained in this agenda may come before this Committee for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during this meeting. Action will be restricted to those specifically identified in the agenda and any issues arising after publication of this notice that require emergency

action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Helen Allen, 907-271-2809, at least 5 working days prior to the meeting date.

Dated: August 7, 2000.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Telecommunications and Information Administration

[Docket No. 000623194-0221-02]

RIN 0660-XX09

Notice; Request for Comments on Global Positioning System/ Ultrawideband Measurement Plan

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Institute for Telecommunication Sciences (ITS) and the Office of Spectrum Management (OSM) of the National Telecommunications and Information Administration (NTIA) invite interested parties to review and comment on a proposed measurement plan to assess the potential mechanisms and the extent of any interference to Global Positioning System (GPS) receivers from ultrawideband (UWB) transmission systems.¹ The GPS/UWB Measurement Plan will be placed on the NTIA homepage at <<http://www.ntia.doc.gov/osmhome/uwbtestplan/gpstestfr.htm>>. Interested parties may also obtain a copy of the measurement plan from OSM or ITS.

DATES: Interested parties are invited to submit comments on the GPS/UWB

¹ NTIA recently sought public comment on a test plan covering the effects of UWB signals on selected Federal radio receivers other than GPS receivers. See Notice and Request for Comments on Ultrawideband Systems Test Plan, 65 FR 40614 (June 30, 2000). That notice and comments received in response to that notice are also available on NTIA's homepage at <<http://www.ntia.doc.gov/osmhome/uwbtestplan/>>.
