**SUPPLEMENTARY INFORMATION:**

**The Applicable Statute and Regulations**

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Tariff Act), are to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations codified at 19 CFR Part 351 (2000).

**Background**

The Department published an antidumping duty order on stainless steel plate in coils from South Africa on May 21, 1999 (64 FR 27756). On May 16, 2000, the Department published its notice of "Opportunity to Request Administrative Review" for the period November 4, 1998 through April 30, 2000 (65 FR 31141). On May 31, 2000, petitioners filed a request for review of Columbus Stainless Steel Company Ltd. and its affiliates (Columbus). On July 7, 2000, we published in the **Federal Register** a notice of initiation of this antidumping duty administrative review covering the period November 4, 1998 through April 30, 2000 (65 FR 41942).

On July 31, 2000, the petitioners withdrew their request for administrative review. Section 19 CFR 351.213 (d)(1) of the Department's regulations stipulates that the Secretary may permit a party that requests a review to withdraw the request not later than 90 days after the date of publication of the notice of initiation of the requested review. In this case petitioners have withdrawn their request for review within the 90 day period. No other interested party requested a review and we have received no other submissions regarding petitioner's withdrawal of their request for review. Therefore, we are terminating this review of the antidumping duty order in stainless steel plate in coils from South Africa.

This notice is published in accordance with section 751 of the Tariff Act and section 19 CFR 351.213 (d)(1) of the Department's regulations.

Dated: August 7, 2000.

**SUPPLEMENTARY INFORMATION:** The subject amendment to Permit No. 473-1433-00, issued on December 12, 1997 (62 FR 67052) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of

Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

Permit No. 473-1433-00 authorizes the applicant to conduct photo-identification research on humpback whales (*Megaptera novaeangliae*) in Alaskan waters. The objective of the proposed research is to develop long-term sighting histories of individual humpback whales to assess stock structure, life history parameters, feeding behaviors, social behaviors of feeding populations, and population estimates. During the course of research, killer whales (*Orcinus orca*), minke whales (*Balaenoptera acutorostrata*), gray whales (*Eschrichtius robustus*), and fin whales (*B. physalus*) may also be opportunistically photo-identified. The authority of this permit expires on November 30, 2002.

The permit holder is now requesting authorization to photo-id (100 annual takes) and critter cam tag (25 annual takes) sperm whales (*Physeter catodon*) in Alaskan waters.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

**SUPPLEMENTARY INFORMATION:** The subject amendment to Permit No. 731-1509-01, issued on November 24, 1999 (64 FR 67563-67564) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 731-1509-01 authorizes the applicant to conduct radio tagging via suction-cup attachment, photo-identification, and behavioral observations of several species of cetaceans in the waters of Washington, Southeast Alaska, Oregon, California,

Hawaii, and the Mediterranean and Ligurian Seas in order to study diving behavior of the subject cetacean species. The authority of this permit expires on July 31, 2004.

The applicant is now requesting authorization to increase annual takes of killer whales (*Orcinus orca*) from 20 to 50 in Pacific coastal waters. The researcher proposes that the increase in takes will allow for a sufficient sample size to quantitatively examine reactions of tagged animals to vessel traffic, particularly for the "southern" resident population.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.
