SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 731-1509-01, issued on November 24, 1999 (64 FR 67563-67564) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 731-1509-01 authorizes the applicant to conduct radio tagging via suction-cup attachment, photo-identification, and behavioral observations of several species of cetaceans in the waters of Washington, Southeast Alaska, Oregon, California,

Hawaii, and the Mediterranean and Ligurian Seas in order to study diving behavior of the subject cetacean species. The authority of this permit expires on July 31, 2004.

The applicant is now requesting authorization to increase annual takes of killer whales (*Orcinus orca*) from 20 to 50 in Pacific coastal waters. The researcher proposes that the increase in takes will allow for a sufficient sample size to quantitatively examine reactions of tagged animals to vessel traffic, particularly for the "southern" resident population.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: August 9, 2000.

Chief, Permits and Documentation Division, Office of Protected Resources, National Marine Fisheries Service.
