Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before October 16, 2000.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: August 10, 2000.

There are very limited reporting requirements for this program, so the information is needed to describe consumer characteristics, services provided, and program outcomes. Most of the information will come from project directors, but there will also be interviews with project staff, tribal representatives, advisory group members, service providers, and State VR agency staff.

is also available on the official RTO West web site at www.rto west.com, or BPA's web site at www.bpa.gov.

SUPPLEMENTARY INFORMATION: In December 1999, the Federal Energy Regulatory Commission (FERC) issued Order 2000, which encourages the formation of RTOs. The goal of that order is to promote efficiency in the wholesale electricity marketplace and to ensure that consumers pay the lowest price possible for reliable service. The order also requires utilities to file RTO proposals with FERC by October 15, 2000, with the RTOs to be fully operating by December 15, 2001.

FERC encouraged the federal power marketing administrations (PMAs), including BPA, to participate in RTO development. In response, on May 16, 2000, the U.S. Department of Energy directed the PMAs to participate in the development of RTOs and to file with FERC by the October 15 deadline. BPA began working collaboratively with Avista, Idaho Power Company, Montana Power Company, Nevada Power Company, PacifiCorp, Portland General Electric Company, Puget Sound Energy, Inc., and Sierra Pacific Power Company to form an RTO. These Filing Utilities have reached consensus on the structure of RTO West, developed a set of RTO principles, established an RTO Collaborative Process Plan, and clarified roles, responsibilities, and process related to the formation of RTO West. The Collaborative Process Plan committed RTO West to host Regional Workshops to encourage broader participation in the development of RTO West and to receive input on issues associated with RTO West formation.

Interested regional parties are included in the RTO West Regional Representatives Group (RRG), which is charged with reviewing and discussing issues and recommending approaches to the successful formation of an RTO in the Northwest. In addition, the several technical workgroups, working in conjunction with the RRG, are developing papers that will be shared with the region in August. The papers will also be available on the RTO web site at www.rto west.com.

BPA, as a Federal agency, has responsibilities under the National Environmental Policy Act (NEPA). Environmental information must be available to decisionmakers and to the public before decisions are made and before actions are taken. In response to a need for a sound policy to guide its business direction under changing market conditions, BPA prepared the Business Plan Environmental Impact Statement (Business Plan EIS, DOE/EIS–
