DEPARTMENT OF LABOR

Occupational Safety and Health Administration

Susan Harwood Training Grant Program

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice of availability of funds for Fiscal Year 2001 and request for grant applications.

SUMMARY: The Occupational Safety and Health Administration (OSHA) awards funds to nonprofit organizations to conduct safety and health training and education in the workplace. OSHA will make available approximately \$4.7 million in grant funds in fiscal year 2001 (pending enactment of the Agency’s fiscal year 2001 appropriations bill) to eligible organizations for Institutional Competency Building grants under its Susan Harwood Training Grant Program.

Institutional Competency Building Grants are available to nonprofit organizations to assist them in developing and/or expanding their safety and health training, education and related assistance capacity over a three-to-five year competency building period.

Institutional Competency Building Grants will be awarded for up to five years. Annual funding in subsequent years will be dependent on the grantee’s satisfactory performance and the availability of funds. There is approximately \$4.7 million available for this program and an average Federal award will be \$250,000. A minimum non-Federal matching share of 10% is required for the first year of the grant. The required non-Federal matching share will be increased by 5% each subsequent year of the grant.

The notice describes the scope of the grant program and provides information about how to get detailed grant application instructions. Applications should not be submitted without the applicant first obtaining the detailed grant application instructions mentioned later in the notice. Separate grant applications must be submitted by organizations interested in applying for more than one grant.

Section 21(c) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 670) authorizes this program.

DATES: Applications must be received by October 27, 2000.

ADDRESSES: Submit grant applications to the OSHA Office of Training and Education, Division of Training and

Educational Programs, 1555 Times Drive, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT: Ronald Mouw, Chief, Division of Training and Educational Programs, or Cynthia Bencheck, Program Analyst, OSHA Office of Training and Education, 1555 Times Drive, Des Plaines, Illinois 60018, telephone (847) 297-4810, e-mail cindy.bencheck@osha.gov.

SUPPLEMENTARY INFORMATION:

What is the Purpose of the Harwood Training Grant Program?

Susan Harwood Training Grants provide funds to train workers and employers to recognize, avoid, and prevent safety and health hazards in their workplaces. The program emphasizes three areas.

- Educating workers and employers in small businesses, and particularly vulnerable workers. A small business has 250 or fewer workers.

- Training workers and employers about new OSHA standards.

- Training workers and employers about high risk activities or hazards identified by OSHA through its Strategic Plan, or as part of an OSHA special emphasis program.

Grantees are expected to provide occupational safety and health services, develop safety and health training and/or educational programs, recruit workers and employers for the training, and conduct the training. Grantees are also expected to follow up with people trained by their program to determine what, if any, changes were made to reduce hazards in their workplaces as a result of the training.

What are the Requirements for the Institutional Competency Building Grants?

Nonprofit organizations that serve clients nationally or in multiple states, *i.e.*, five or more states, and provide or plan to provide safety and health training, education and services are eligible to apply for these Institutional Competency Building grants. Preference will be given to organizations that can reach and serve one or more categories of workers within the target audience.

Institutional Competency Building Grants may be funded for project periods of up to five years. Grant applicants must indicate the number of years, typically three-to-five, needed to fully integrate safety and health services into their organizations. Grantee organizations will be expected to establish or expand the occupational safety and health training, education and related assistance they provide to their clients. Grantees will be expected
