The Secretary of the Interior has, under the authority of the Act of July 23, 1955, the discretion to permit the free use of vegetative or mineral materials for use other than commercial or industrial purposes or resale. The Secretary of the Interior also has the discretion to permit the free use of vegetative or mineral materials under certain circumstances, to mining claimants.

BLM uses the information provided by the applicant(s) to: maintain an inventory of vegetative and mineral information and to adjudicate your rights to vegetative and mineral resources. If BLM did not collect this information, your application may be rejected, as a permit must be filed before removal (43 CFR 5511.2-3) and the BLM must monitor the authorized uses of public lands.

Based on BLM's experience administering the activities described above, the public reporting burden for the information collected is estimated to average 30 minutes per response. The respondents are the general public. The frequency of response is once per application for a permit. The number of responses per year is estimated to total 450. The estimated total annual burden on new respondents is about 225 hours. BLM is specifically requesting your comments on its estimate of the amount of time that it takes to prepare a response. BLM's estimate is 30 minutes per response, which includes the time for reviewing instructions, gathering

and maintaining the data, and completing and reviewing the form.

BLM will summarize all responses to this notice and include them in the request for Office of Management and Budget approval. All comments will also become a matter of public record.

Dated: August 16, 2000.
