SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), FRA is giving notice of a meeting of the Railroad Safety Advisory Committee ("RSAC"). The meeting is scheduled to begin at 9:30 a.m. and conclude at 3:30 p.m. on Thursday, September 14, 2000. The meeting of the RSAC will be held at the Association of American Railroads' Conference Center, 50 F Street, NW Washington, DC, (202) 639-2565. All times noted are Eastern Standard Time.

RSAC was established to provide advice and recommendations to the FRA on railroad safety matters. Staff of the National Transportation Safety Board and Federal Transit Administration also participate in an advisory capacity.

The RSAC will be briefed on the current status of activities of RSAC working groups and task forces responsible for carrying out tasks the RSAC has accepted involving blue signal protection, event recorders, the definition of reportable "train accident", roadway maintenance equipment safety standards, and incorporation of a provision for gage restraint measurement within the Track Safety Standards.

There will be discussion about the possible tasking of the Training and Qualification of Safety Critical personnel and a vote to approve the Draft Notice of Proposed Rulemaking (NPRM) on Standards for Processor Based Signal and Train Control Systems. Also, if the draft Notice of Proposed Rulemaking for Cab Working Conditions is approved by the Working Group, the full committee may be requested to consider recommendations for FRA action on that issue.
