SUPPLEMENTARY INFORMATION: Title V of Public Law 105-383 provides authority to the Secretary of Transportation to administratively waive the U.S.-build requirements of the Jones Act, and other statutes, for small commercial passenger vessels (no more than 12 passengers). This authority has been delegated to the Maritime Administration per 49 CFR § 1.66, Delegations to the Maritime Administrator, as amended. By this notice, MARAD is publishing information on a vessel for which a request for a U.S.-build waiver has been received, and for which MARAD requests comments from interested parties. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD'S regulations at 46 CFR Part 388.

Vessel Proposed for Waiver of the U.S.-Build Requirement

(1) Name of vessel and owner for which waiver is requested: Name of vessel: MENEHUNE. Owner: John M. Cece and Mary F. Cece.

(2) Size, capacity and tonnage of vessel: According to the Applicant: MENEHUNE is 42 feet long, with a beam of 13 feet and a gross tonnage of 24 tons (Net Tons: 22).

(3) Intended use for vessel, including geographic region of intended operation and trade: According to the applicant: The intended use of the vessel, after the granting of the waiver, is to conduct recreational, and learning cruises (usually day sails) on the Chesapeake Bay. The maximum number of passengers/students will be six (6) (NOT for the purpose of transportation between US ports, but for the purpose of recreation, and teaching sailing).

This will enable the vessel to operate as an uninspected vessel with a coastwise endorsement. The charter/lessons will be conducted by Menehune Charters in conjunction with Menehune Marine Services and John and Mary Cece. Menehune Marine Services is a Maryland Corporation and citizen of the United States.

(4) Date and place of construction and (if applicable) rebuilding: Date of construction: 1982. Place of construction: Whitby, Canada.

(5) A statement on the impact this waiver will have on other commercial passenger vessel operators: According to the applicant: It is anticipated that there will be NO impact on other commercial passenger operators (we anticipate that our passengers/students will come from an existing database of persons who have sailed with us in the past). Our charter/teaching operation was established in 1980.

(6) A statement on the impact this waiver will have on U.S. shipyards: According to the applicant: Granting of this waiver will have a positive impact on US shipyards. In addition to the estimated \$20,000 already deposited with US shipyards/suppliers for repair and upgrade of this vessel, we will continue to purchase stores, fuel, repairs, and wharfage from US businesses.

If the waiver is NOT granted, the vessel will NOT be used in commercial voyages, and expenditures will be minimal. In addition, if the business expands, we may purchase a larger vessel which will be U.S. built and certified as an Inspected Vessel.

Dated: August 21, 2000.

By Order of the Maritime Administrator.

Joel C. Richard,

Secretary, Maritime Administration.
