Only U.S., Canadian, and Mexican government officials may attend the plenary and working group meetings.

Background

The Land Transportation Standards Subcommittee (LTSS) was established by the North American Free Trade Agreement's (NAFTA) Committee on Standards-Related Measures to examine the land transportation regulatory regimes in the United States, Canada, and Mexico, and to seek to make certain standards more compatible. The Transportation Consultative Group (TCG) was formed by the three countries' departments of transportation to address non-standards-related issues that affect cross-border movements among the countries, but that are not included in the NAFTA's LTSS work program (Annex 913.5-1).

After October 10, statements may be submitted for the record, and requests to present oral comments at the listening session will be accommodated only on a time-available basis.
