Approval and Promulgation of Implementation Plans; Indiana Source-Specific Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to limitations for two facilities in Lake County, Indiana. These limitations concern particulate matter from Lever Brothers facility and both particulate matter and sulfur dioxide from NIPSCO's Dean Mitchell Station. Indiana requested these revisions on February 3, 1999, and December 28, 1999, respectively.

In separate action in today's **Federal Register**, EPA is approving the submittals as a direct final rule without prior proposal, because the EPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for this action is set forth in the direct final rule.

If EPA receives no adverse written comments in response to these actions, we contemplate no further activity in relation to this proposed rule. If we receive adverse written comments, we will withdraw the direct final rule and will address all public comments in a subsequent final rule based on this proposed rule. Any parties interested in commenting on this action should do so at this time.

DATES: EPA must receive comments by September 28, 2000.

ADDRESSES: Mail written comments to: J. Elmer Bortzer, Chief, Regulation Development Section, Air Programs Branch (AR-18J), United States Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604.

National Emission Standards for Hazardous Air Pollutant Emissions: Group IV Polymers and Resins

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to indefinitely stay the compliance date for the process contact cooling tower (PCCT) provisions for existing affected sources producing poly(ethylene terephthalate) (PET) using the continuous terephthalic acid (TPA) high viscosity multiple end finisher process. We are proposing this stay of the compliance date because the EPA is in the process of responding to a request to reconsider relevant portions of the National Emission Standards for Hazardous Air Pollutants (NESHAP) for Group IV Polymers and Resins which may result in changes to the emission limitation which applies to PCCT in this subcategory.

In the "Rules and Regulations" section of this **Federal Register**, we are finalizing this stay without prior proposal because we view this as a noncontroversial action and anticipate no adverse comment. We have explained our reasons for this action in the preamble to the direct final rule. If we receive an adverse comment on this action, we will withdraw the direct final rule and it will not take effect. We will address all public comments in a subsequent final rule based on this proposed rule. We will not institute a second comment period on this action. Any parties interested in commenting must do so at this time.
