

delivery system so as to enhance the safety of those who work at the aviation facility and those individuals it serves, and to provide additional environmental safeguards. The number of flights is not increasing as a result of this proposal. The level of noise and the air quality will not change, however approximately ¾ of an acre of paved surface will be restored to grass.

As part of its decision-making process, an EA was developed in 1999. This EA contained two alternatives: a no action and a preferred alternative. Because NPS recognizes the value of public review and comment of its proposals, this EA was made available for public review in 1999. Although very few comments were received, as a result of the comments submitted by the public both during and after the commenter period, NPS revised its EA in order to consider the ideas raised by the public. The revised EA which is now available for public review and comment, contains three alternatives: a no action; an action; and a preferred alternative, along with three alternatives considered but rejected because they were unreasonable, unworkable, or not permitted.

For further information, contact the National Capital Parks-East public information officer at (202) 690-5185.

Dated: August 23, 2000.

### National Park Service

#### Notice of Intent to Repatriate Cultural Items from Phillips County, KS in the Possession of the Kansas State Historical Society, Topeka, KS

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given under the Native American Graves Protection and Repatriation Act, 43 CFR 10.10 (a)(3), of the intent to repatriate cultural items from Phillips County, KS in the possession of the Kansas State Historical Society, Topeka, KS that meet the definition of “unassociated funerary object” under Section 2 of the Act.

This notice is published as part of the National Park Service’s administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these cultural items. The National Park Service is not responsible for the determinations within this notice.

The 19 cultural items include 1 pottery vessel, 3 chipped stone projectile points, 1 bone tool, 1 shell pendant, 1 shell gorget, and 12 disc shell beads.

In 1944, these cultural items were donated to the Kansas Historical Society by Cecil Kingery of Phillipsburg, KS. Donor information indicates that these cultural items were recovered from “an Indian grave” exposed by roadwork two miles west and a half-mile south of Phillipsburg, Phillips County, KS.

Recent oral history has identified this gravesite as site 14PH343, with the disturbance of the grave occurring in 1931. Based on ceramic analysis, site 14PH343 has been identified with the Upper Republican Aspect of the Central Plains Tradition, approximately A.D. 1250. Based on temporal position, geographic location, and continuities of material culture, the Upper Republican Aspect period has been identified as ancestral to the Pawnee Nation of Oklahoma.

Based on the above-mentioned information, officials of the Kansas State Historical Society have determined that, pursuant to 43 CFR 10.2 (d)(2)(ii), these 19 cultural items are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of an Native American individual.

Officials of the Kansas State Historical Society also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these items and the Pawnee Nation of Oklahoma.

This notice has been sent to officials of the Pawnee Nation of Oklahoma. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these objects should contact Randall M. Thies, Archeologist, Kansas State Historical Society, 6425 Southwest Sixth Avenue, Topeka, KS 66615-1099, telephone (785) 272-8681, extension 267, before September 28, 2000. Repatriation of these objects to the Pawnee Nation of Oklahoma may begin after that date if no additional claimants come forward.

Dated: August 18, 2000.

**John Robbins,**

*Assistant Director, Cultural Resources Stewardship and Partnerships.*

#### Notice of Intent to Repatriate Cultural Items in the Possession of the Museum of Indian Arts and Culture/ Laboratory of Anthropology, Museum of New Mexico, Santa Fe, NM

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given under the Native American Graves Protection and Repatriation Act, 43 CFR 10.10 (a)(3), of the intent to repatriate cultural items in the possession of the Museum of Indian Arts and Culture/Laboratory of Anthropology, Museum of New Mexico, Santa Fe, NM that meet the definition of “unassociated funerary object” under Section 2 of the Act.

This notice is published as part of the National Park Service’s administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these cultural items. The National Park Service is not responsible for the determinations within this notice.

Three cultural items are a fillet-rimmed ceramic bowl, a bone bead, and one lot of bone awls.

While these three cultural items are recorded as excavated from numbered burials at site LA95 (Quavai site), Torrance County, NM, the human
