

public and private, and rural and urban colleges to determine under what conditions, for which STDs, and how colleges educate about STDs, conduct testing and provide partner management.

STDs have a large economic and health impact throughout the United States. Most college students are within the age range with the highest rates for STDs (15–24 year olds). Chlamydia trachomatis is the most frequently reported infectious disease in the United States with prevalence rates of 4% to 18% in 16–24 year old women. Infections with Chlamydia trachomatis can result in pelvic inflammatory disease and infertility. Many STDs

increase the risk of HIV transmission and acquisition. Genital infections with herpes simplex virus, human papillomavirus, and Trichomonas vaginalis have been reported at increasing rates over the last 10 years.

This national survey will provide data that will broaden the scientific knowledge related to STD services and management available to students at U.S. colleges. The survey is intended to (a) describe health insurance policies of colleges; (b) describe preventive services such as health education and condom availability at colleges; (c) identify characteristics of student health centers including staffing, type of care, and number of students seen; (d) identify

possible obstacles to accessing STD services; (e) describe which STDs are being tested for and what testing criteria are applied; and (f) describe current partner services including partner notification practices and use of partner-delivered therapy.

The CDC estimates that 900 respondents will complete and submit the survey questionnaire on one single occasion. The questionnaire is estimated to take approximately 30 minutes to complete.

Therefore, the total response burden is estimated at 450 hours for an average cost to the respondents of \$14,503.*

Respondents	Number of respondents	Number of response per respondent	Average burden per response (in hours)	Total burden (in hours)
ACHA Member of Health Center Contact or Chief Executive Administrator ..	900	1	5	450

Average income combined per hour = \$32.23 x 450 hours = \$14,503 Health Service Managers—\$44,700 yearly average—\$21.49 per hour. (US Department of Labor, Bureau of Labor Statistics)
 Chief Administrative Officer, Academe—\$89, 376 yearly average—\$42.97 per hour. (Wall Street Journal Careernet)

Dated: August 23, 2000.
Nancy Cheal,
Acting Associate Director for Policy Planning, and Evaluation Centers for Disease Control and Prevention (CDC).

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639–7090. Send written comments to CDC, Desk Officer; Human

Resources and Housing Branch, New Executive Office Building, Room 10235; Washington, DC 20503. Written comments should be received within 30 days of this notice.

Proposed Project

Evaluation of Public Care Providers' Training, Screening, and Referral Practices for Pregnancy-Related Violence—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP). Two questionnaires have been designed to collect information for the project entitled: "Evaluation of Public Care Providers' Training, Screening, and Referral Practices for Pregnancy-Related Violence." The purpose of the project is to develop and implement an evaluation to provide the Centers for Disease Control and Prevention (CDC) with the capacity to investigate the role of clinical guidelines in detecting and intervening in intimate violence in publicly-funded family planning settings. This evaluation will encompass: (1) The administrative level at which guidelines operate; (2) the

contents of guidelines; (3) the format of guidelines; (4) the use of guidelines; and (5) barriers to the adoption of guidelines for programs that do not have any in place. The information gathered will be analyzed in conjunction with existing data from other sources. The information obtained from the evaluation will be used by CDC to develop recommendations for guidelines to address screening and referral practices and provider training. Healthy People 2000 calls for a reduction of physical, sexual and emotional abuse towards women, and for the use of protocols in emergency room settings to identify and treat victims of violence. As the nation's prevention agency, CDC has been charged with finding ways to prevent violence against women. Little is known about how widely guidelines have been instituted in publicly-funded family planning settings. This evaluation will provide the first clear understanding of the barriers to implementing and using appropriate protocols. The estimated annualized burden hours are 285.

Respondents	Number of respondents	Number of responses per respondents	Average burden per response (in hours)
Clinicians	600	1	.25
Clinic Administrators	540	1	.25

Medicare Program; Postponement of Open Town Hall Meeting to Discuss Criteria for Making Coverage Decisions from August 31, 2000 to September 13, 2000

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Notice of meeting postponement.

SUMMARY: This notice announces the postponement of the August 31, 2000 town hall meeting to discuss the criteria for making a coverage decision under the Medicare program. This meeting is rescheduled for September 13, 2000.

DATES: September 13, 2000, from 9 a.m. until 12 noon, E.D.T.

ADDRESSES: The meeting will be held at the HCFA headquarters auditorium, 7500 Security Boulevard, Baltimore, Maryland 21244.

FOR FURTHER INFORMATION CONTACT: Patricia Brocato-Simons at 410-786-0261.

SUPPLEMENTARY INFORMATION: On August 17, 2000, we published a notice in the *Federal Register* (65 FR 50171) that announced the town hall meeting for interested parties to discuss criteria we would use to make certain national coverage decisions under the Medicare program. (The August notice provides specific information on the purpose of this meeting. This information remains the same and has not been changed). We wish to allow an additional opportunity to obtain input from the public on the criteria we would use to make Medicare national coverage decisions. Our intent was to hold a town hall meeting promptly to facilitate our efforts to issue a proposed rule. We received, however, comments and requests to delay the town hall meeting to give the public more time to prepare for the meeting. We have rescheduled the open town hall meeting from August 31, 2000 to September 13, 2000.

Authority: Sections 1102 and 1871 of the Act (42 U.S.C. 1302 and 1395hh).
