

(5) ecosystem function. These preliminary issues are not final and may be further refined by direct input through active public participation. The only program element within the Albuquerque Field Office, that will be addressed during development of the RMP Amendment, is projected oil and gas development in the Albuquerque Field Office for the next 20 years.

Four criteria are proposed to guide the resolution of the issues that will be considered in the RMP Revision.

1. Actions must comply with laws, regulations, and executive orders.

2. Actions must be reasonable and achievable.

3. Actions will be considered for their long-term benefits to the public in relation to short-term benefits.

4. Actions will be considered in an interdisciplinary approach.

Industry and other interested parties are asked to provide any information for areas adjacent to existing mines that will be useful in meeting the requirements of the Federal Coal Management Program defined in 43 CFR part 3420, including application of the coal planning screens and possible future activity planning such as tract delineation, ranking and selection. Information resulting from this call will be used to determine potential for coal development and the likelihood of conflict with other resources.

The issue of federal coal leasing and development will include:

1. Determining areas acceptable for further coal leasing consideration with standard stipulations;

2. Determining areas acceptable for consideration with special stipulations;

3. Determining areas unacceptable for further coal leasing consideration.

The BLM will apply the coal development, unsuitability criteria, multiple use conflict and consultation screens in order to make these determinations.

The type of information needed includes, but is not limited to, the following:

1. Location:

a. Federal coal tracts desired by mining companies should include a narrative description with areas delineated on a map with a scale of not less than 1/2 inch to the mile.

b. Descriptions of both public and private industry coal users in the general region.

2. Quantity needs (tonnage, dates) for both public and private industry coal users and coal developers.

3. Quality needs (by type and grade) for end users of the coal.

4. Coal reserve drilling data which may pertain to the planning area.

5. Information relating to surface and mineral ownership.

a. Surface owner consents previously granted, whether consent is transferable, surface owner leases with coal companies.

b. Non-federal, or fee coal ownership adjacent to federal tracts currently leased or mined.

6. Other resource values occurring within the planning area which may conflict with coal development:

a. Describe the resource value and locate it on a map with a scale of not less than 1/2 inch to the mile.

b. State the reasons the particular resource would conflict with coal development. Any individual, business entity, or public body may participate in this process by providing coal or other resource information under this call for information. A public participation plan is being prepared. It is intended to involve interested or affected parties early and continuously throughout the planning process. The public participation plan will emphasize localized one-to-one contacts, media coverage, direct mailings, and continual coordination and collaboration. Meetings will be held to (1) determine the scope of the RMP Revision and Amendment and (2) obtain input on issues and planning criteria. The meetings will be held in Cuba, Crownpoint, and Farmington, New Mexico at the following times and locations.

September 26, 2000, 7 p.m., Cuba, Senior Citizen Center

September 27, 2000, 7 p.m. Crownpoint, Chapter House

September 28, 2000, 7 p.m., Farmington, Civic Center

Complete records of all phases of the planning process will be available for public review at the Farmington Field Office throughout development of the RMP Revision and Amendment. It is estimated it will take approximately 18 months to complete the Proposed RMP Revision and Amendment. Alternatives will be developed and analyzed to resolve the issues addressed in the document. A Draft RMP Revision and Amendment and Draft EIS will be published and made available for a 90-day comment period. Comments made on the Draft RMP Revision and Amendment and Draft EIS will be addressed in a Proposed RMP Revision and Amendment and Final EIS. There will be a 30-day protest period on the Proposed RMP Revision and Amendment for individuals who participated in the planning process.

Dated: August 21, 2000.

### Bureau of Land Management

[ES-960-1910-BJ-4041] ES-50776, Group 94, Arkansas

#### Notice of Filing of Plat of Survey; Arkansas

The plat of the corrective dependent resurvey of a portion of the east boundary, a portion of the south boundary, a portion of the subdivisional lines, and the corrective survey of the subdivision of certain sections in Township 15 North, Range 23 West, Fifth Principal Meridian, Arkansas, will be officially filed in Eastern States, Springfield, Virginia, at 7:30 a.m., on October 2, 2000.

The survey was requested by the National Park Service.

All inquiries or protests concerning the technical aspects of the survey must be sent to the Chief Cadastral Surveyor, Eastern States, Bureau of Land Management, 7450 Boston Boulevard, Springfield, Virginia 22153, prior to 7:30 a.m., October 2, 2000.

Copies of the plat will be made available upon request and prepayment of the appropriate fee.

Dated: August 16, 2000.

### National Park Service

#### Notice of Availability of Draft Director's Order Concerning National Park Service Policies and Procedures Governing Its Value Analysis Program

**AGENCY:** National Park Service, Department of the Interior.

**ACTION:** Notice of availability.

**SUMMARY:** The National Park Service (NPS) has prepared a Director's Order setting forth its policies and procedures governing use of Value Analysis. When adopted, the policies and procedures will apply to all units of the national park system and will supersede and replace the policies and procedures issued in July 1994.

**DATES:** Written comments will be accepted until September 19, 2000.

**ADDRESSES:** Draft Director's Order #90 is available on the Internet at <http://www.nps.gov/refdesk/Dorders/index.htm>. Requests for copies and written comments should be sent to Richard Turk, NPS Value Analysis Program Coordinator, Construction Program Management, P.O. Box 25287, 12795 W. Alameda Parkway, Denver, Colorado 80225-0287 or to his Internet address: [rich\\_turk@nps.gov](mailto:rich_turk@nps.gov).

**FOR FURTHER INFORMATION CONTACT:** Rich Turk at (303) 969-2470.

**SUPPLEMENTARY INFORMATION:** The NPS is updating its current system of internal written instructions. When these documents contain new policy or procedural requirements that may affect parties outside the NPS, they are first made available for public review and comment before being adopted. The policies and procedures governing Value Analysis have previously been published in the form of guideline NPS 90. That guideline will be superseded by the new Director's Order 90 (and a reference manual that will be issued subsequent to the Director's Order). The draft Director's Order covers topics such as the value analysis program, thresholds for application of value analysis for construction and non-construction projects, value engineering change proposals (VECP), annual report, plan of action, coordination, and funding.

Individual respondents may request that we withhold their home address from the administrative record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment.

Dated: August 24, 2000.

## OVERSEAS PRIVATE INVESTMENT CORPORATION

### Sunshine Act Meeting; September 14, 2000 Public Hearing

*Time and Date:* 2:00 PM, Thursday, September 14, 2000.

*Place:* Offices of the Corporation, Twelfth Floor Board Room, 1100 New York Avenue, N.W., Washington, D.C.

*Status:* Hearing OPEN to the Public at 2:00 PM.

*Purpose:* In conjunction with the quarterly meeting of OPIC's Board of Directors, to afford an opportunity for any person to present views regarding the activities of the Corporation.

*Procedure:* Individuals wishing to make statements or present written statements must provide advance notice to OPIC's Corporate Secretary no later than 5 PM, September 13, 2000. The notice must include the individual's name, organization, address, and telephone number, and a concise summary of the subject matter to be presented.

Oral presentations may not exceed ten (10) minutes. The time for individual presentations may be reduced proportionately, if necessary, to afford all participants who have submitted a timely request to participate an opportunity to be heard.

Participants wishing to submit a written statement for the record must submit a copy of such statement to OPIC's Corporate Secretary no later than 5 PM, September 13, 2000. Such statements must be typewritten, double-spaced and may not exceed twenty-five (25) pages.

Upon receipt of the required notice, OPIC will prepare an agenda for the hearing identifying speakers, setting forth the subject on which each participant will speak, and the time allotted for each presentation. The agenda will be available at the hearing.

A written summary of the hearing will be compiled, and such summary will be made available, upon written request to OPIC's Corporate Secretary, at the cost of reproduction.

*Contact Person for Information:* Information on the hearing may be obtained from Connie M. Downs at (202) 336-8438, via facsimile at (202) 408-0297, or via email at [cdown@opic.gov](mailto:cdown@opic.gov).

Dated: August 28, 2000.

**Connie M. Downs,**

*OPIC Corporate Secretary.*

## INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-884 (Preliminary)]

### Anhydrous Sodium Sulfate From Canada

#### Determination

On the basis of the record<sup>1</sup> developed in the subject investigation, the United States International Trade Commission unanimously determines, pursuant to section 733(a) of the Tariff Act of 1930,<sup>2</sup> that there is no reasonable indication that an industry in the United States is materially injured or threatened with material injury, or that the establishment of an industry in the United States is materially retarded, by reason of imports of anhydrous sodium sulfate from Canada,<sup>3</sup> that are alleged to be sold in the United States at less than fair value (LTFV).

#### Background

On July 10, 2000, a petition was filed with the Commission and the Department of Commerce by Cooper Natural Resources (CNR), Tulsa, OK, and IMC Chemicals (IMCC), Overland Park, KS, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of anhydrous sodium sulfate from Canada. Accordingly, effective July 10, 2000, the Commission instituted antidumping investigation No. 731-TA-884 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of July 17, 2000.<sup>4</sup> The conference was held in Washington, DC, on July 31, 2000, and all persons who requested the opportunity were

<sup>1</sup> The record is defined in § 207.2(f) of the Commission's rules of practice and procedure (19 CFR 207.2(f)).

<sup>2</sup> 19 U.S.C. 1673b(a).

<sup>3</sup> For purposes of this investigation, anhydrous sodium sulfate, also referred to as "salt cake" or "disodium sulfate," is an inorganic chemical with a chemical composition of Na<sub>2</sub>SO<sub>4</sub>. The "Chemical Abstract Service" number for anhydrous sodium sulfate is 7757-82-6. All forms and variations of anhydrous sodium sulfate are included within the scope of the investigation, regardless of grade, level of purity, production method, or form of packaging. Anhydrous sodium sulfate is currently classifiable under subheadings 2833.11.10 and 2833.11.50 of the Harmonized Tariff Schedule of the United States (HTS).
