#### International Buyer Program; Support for Domestic Trade Shows

**AGENCY:** International Trade Administration, Department of Commerce.

**ACTION:** Notice.

**SUMMARY:** The International Buyer Program of the Department of Commerce, which invited interested trade show organizer/sponsoring organizations to apply for inclusion on the program calendar for Fiscal Year 2002 (October 1, 2001 through September 30, 2002) allowed applications by e-mail for the first time this year. The application period, which began with publication of the **Federal Register** Notice on June 27, 2000, ended officially on August 11, 2000. Regrettably, the computer servers and e-mail communication system upon which the program depends failed to perform from August 9 through August 11, 2000. While a number of prospective applicants communicated their difficulties in applying owing to our communication system failure, some additional prospective applicants may have also been prevented from doing so. Organizers who were unable to communicate their application to the program should provide us a written statement that the organizer attempted to apply electronically during the period of computer/communications failure (August 9-11, 2000). The organizer should also resubmit a copy of its application and we will deem it to have been submitted during the competitive period.

**FOR FURTHER INFORMATION CONTACT:** Jim Boney at the Department of Commerce. Telephone number 202-482-0146 or FAX 202-482-0115 or via E-mail at jim.boney@mail.doc.gov

#### New England Fishery Management Council; Notice and Request for Sea Scallop Research Proposals

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration, (NOAA), Commerce.

**ACTION:** Notice of solicitation for applications.

**SUMMARY:** NMFS issues this document to describe how you, the researcher, may be selected to perform sea scallop research projects funded by a 1-percent set-aside of the scallop total allowable catch (TAC) under Framework Adjustment 13 to the New England Fishery Management Council's (Council's) Atlantic Sea Scallop Fishery Management Plan (FMP) and Framework Adjustment 34 to the Council's Northeast Multispecies FMP (Frameworks 13/34) and how NOAA and the Council will determine whether to select your proposal. Frameworks 13/34 allow scallop vessels temporary access to portions of the groundfish closed areas on Georges Bank and Nantucket Shoals to harvest sea scallops and allow selected vessels to land scallops in excess of the possession limit or take additional trips and use the proceeds of the excess catch or additional trips to offset the costs of the research proposals submitted in response to this notification. Frameworks 13/34 authorize certain scallop vessels during the 2000 scallop fishing year to fish three trips per vessel in Closed Area II (CA II), one trip per vessel in the Nantucket Lightship Closed Area (NLCA), and 2 trips per vessel in Closed Area I (CA I) for certain periods of time, unless modified by action taken by the Regional Administrator, Northeast Region, NMFS (Regional Administrator).

NOAA, in cooperation with the Council, is publishing this second of two solicitations to request proposals for scallop research utilizing set-aside TAC from CA I, NLCA, and any CA II research TAC that may remain after award to projects submitted under NOAA's original CA II solicitation. Vessels participating in an approved project and fishing in the closed areas would be authorized by the Regional Administrator to take additional trips into the closed areas and/or to land scallops in excess of the 10,000-lb (4,536-kg) possession limit allowed for all closed area trips.

**DATES:** All research proposals to be considered under this solicitation must be received between August 30, 2000 and no later than 5 p.m., local time, on September 20, 2000 (see **ADDRESSES** section of this document). Postmarks will not be sufficient. Facsimile applications will not be accepted. For further information related to the timeframe for review and selection of proposals to be conducted with TAC
