

and the State of Minnesota State Implementation Plan ("SIP") limiting emissions of particulate matter from multiple hearth incinerators operated by the Defendant which burned sewage sludge generated from the wastewater treatment plant.

Under the proposed consent decree, Metropolitan Council will undertake a series of compliance measures designed with the goal of eliminating future violations of applicable emission limitations until new control equipment is installed. Defendant, among other things, has designed and installed new dampers and seals on the incinerator's emergency stacks that will prevent leakage of particulate matter; will develop a fan alarm system; will develop and implement an operator training program; will develop and implement an improved operation and maintenance plan; and will limit the feed rate to the incinerators. In addition, Metropolitan Council is required to replace the existing multiple hearth incinerators with new fluidized bed incinerators in accordance with a schedule attached to the proposed decree.

In addition to the above, Metropolitan Council has agreed to expend not less than \$1.6 million to perform a Supplemental Environmental Project—the installation of a dry electrostatic precipitator—which will result in an additional forty percent (40%) removal of particulate matter from emissions. Installation of this additional control device is not required by the Act or the Minnesota SIP. Beyond these various compliance measures, Metropolitan Council will also pay a civil penalty of \$250,000.

**SUMMARY:** The Attorney General's designation of Bosnia-Herzegovina for Temporary Protected Status (TPS) expires on August 10, 2000. After reviewing country conditions and consulting with the appropriate Government agencies, the Attorney General has determined that conditions in Bosnia-Herzegovina no longer support TPS designation. The termination of the TPS designation of Bosnia-Herzegovina will therefore take effect on February 10, 2001. After that date, aliens who are nationals of Bosnia-Herzegovina (and aliens having no nationality who last habitually resided in Bosnia-Herzegovina) who have been granted TPS under the Bosnia-Herzegovina designation will no longer possess such status. This notice contains information regarding the 6-month extension and subsequent termination of the TPS designation for Bosnia-Herzegovina.

**DATES:** The TPS designation for Bosnia-Herzegovina is extended until February 10, 2001. On February 10, 2001, the TPS designation for Bosnia-Herzegovina will be terminated. The re-registration period for the default 6-month extension begins August 30, 2000 and ends September 29, 2000.
