## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-219]

### Amergen Energy Company, LLC, Oyster Creek Nuclear Generating Station; Notice of Consideration of Approval of Application Regarding Proposed Corporate Restructuring and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the indirect transfer of Facility Operating License No. DPR-16 for the Oyster Creek Nuclear Generating Station currently held by AmerGen Energy Company, LLC (AmerGen or the licensee), as the owner and licensed operator. The indirect transfer would be to a new holding company, Exelon Corporation, for PECO Energy Company (PECO), a co-owner of AmerGen. The facility is located in Ocean County, New Jersey.

AmerGen is a limited liability company formed to acquire and operate nuclear power plants in the United States. British Energy, Inc. and PECO each own 50 percent of AmerGen. In an application dated July 19, 2000, filed by AmerGen, AmerGen referenced an earlier license transfer application dated February 28, 2000, and supplements thereto, that requested approval of the indirect transfer of the Oyster Creek license (and certain other licenses held by AmerGen) that would occur as a result of a proposed transfer of PECO's 50 percent interest in AmerGen to Exelon Generation Company, LLC (EGC). EGC is to be formed in connection with a pending merger between Unicom Corporation and PECO, under which merger Commonwealth Edison Company, PECO, and EGC are to become direct or indirect subsidiaries of Exelon Corporation. The February 28, 2000, application was noticed separately and is still under consideration.

AmerGen indicated in the July 19, 2000, application that the transfer of PECO's interest in AmerGen to EGC may be delayed for an interim period following completion of the merger, pending the receipt of other regulatory approvals. During this interim period, PECO, which will have become a
