Background

The Department of Defense in a continuing need to meet its added national defense responsibilities has increased its training requirements of the USA Reserve and National Guard resources in many areas of the United States. One of the locations where this training has been increased is at Fort Leonard Wood, MO. This increase in training requires modification of the times of use for R–4501 and its subdivisions. Therefore, the USA has requested that the FAA amend the times and days of use for R–4501A, B, C, D, and E.

The Proposal

The FAA is proposing an amendment to 14 CFR part 73 to modify the times of use of R–4501 and its subdivisions over Fort Leonard Wood, MO. Specifically, the FAA proposes to activate R–4501A thirty minutes earlier and deactivate it three hours later. Additionally, R–4501B would be activated on the same schedule but deactivated four hours later. The day schedule (Monday–Saturday) would remain unchanged.

Also, the FAA proposes to activate R–4501C and D two hours later Monday–Friday and deactivate it three hours later than the current designation on

Monday and two hours earlier Tuesday–Friday. Saturday would no longer be designated as an active day unless done so by NOTAM 24 hours in advance. In addition, the FAA proposes to activate R–4501E on the same schedule as R–4501C and D. The FAA is proposing this action at the request of the USA to meet the increasing training efforts of the USA at Fort Leonard Wood, MO, and to better depict more realistic operational times of use of the restricted areas.

Federal-Aid Project Agreement

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of proposed rulemaking (NPRM); request for comments.

SUMMARY: The FHWA proposes to combine its regulation on Federal-aid project authorization and its regulation on project agreements. Section 1305 of the Transportation Equity Act for the 21st Century (TEA–21) amended 23 U.S.C. 106(a) and combined authorization of work and execution of the project agreement for a Federal-aid project into a single action. Changes to the agreement provisions are being proposed to reflect these adjustments. Additionally, section 1304 of the TEA–21 amended 23 U.S.C. 102(b) to include a provision to allow the granting of time extensions for engineering cost reimbursement. Changes to the procedures would be added to agency regulations to provide this new flexibility.

DATES: Comments must be received on or before October 2, 2000. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Mail or hand deliver comments to the U.S. Department of Transportation, Dockets Management Facility, Room PL–401, 400 Seventh Street, SW., Washington, DC 20590, or submit electronically at <http://dmses.dot.gov/submit>. Background

Under the provisions of 23 U.S.C. 106, a formal agreement between the State transportation department (STD) and the FHWA is required for Federal-aid highway projects. This agreement, referred to as the “project agreement,” is in essence a written contract between the State and the Federal Government defining the extent of the work to be undertaken, the State and the Federal shares of a project’s cost, and commitments concerning maintenance of the project.

The present regulation at 23 CFR 630, subpart C, provides requirements concerning the project agreement. It
