

patients between the ages of 17–55 years.

Cognitive rehabilitation is a generic term lacking a standard definition. The term is used to describe varied systems of multidisciplinary services intended to remedy related cognitive, daily living and psychosocial ability impairments which are secondary to organic brain damage.

The current state of the medical literature does not allow for a TRICARE/CHAMPUS benefit for cognitive rehabilitation in the treatment of TBI patients. The DVHIP is conducting a randomized, prospective trial that would hasten the answers to the current questions of the contribution(s), if any, of cognitive rehabilitation. The study will address the efficacy of cognitive rehabilitation versus traditional rehabilitation of beneficiaries with TBI (moderate to severe closed head injury) in prospective randomized clinical trials.

B. TRICARE/CHAMPUS Policy

TRICARE/CHAMPUS cost shares TBI rehabilitative services such as speech therapy, physical therapy and occupational therapy. However, cognitive rehabilitation therapy, which is frequently provided as a component of TBI care, is considered unproven for brain injury under TRICARE/CHAMPUS.

TRICARE/CHAMPUS, by regulation, does not approve payment for unproven procedures. Any change in the unproven status of cognitive rehabilitation in the treatment of TBI logically awaits the findings from well-controlled studies of clinically meaningful endpoints such as the DVHIP Demonstration Project.

Because CHAMPUS relies upon outcome-based medical literature in the formulation of its coverage policy regarding cognitive rehabilitation, the DoD should assist with research protocols that will directly contribute to the body of science regarding cognitive rehabilitation. Extension of the demonstration project will assist in meeting clinical trial goals of the DVHIP study and arrival at conclusions regarding the safety and efficacy of cognitive rehabilitation in treatment of TBI.

C. Operation of the Demonstration

The Extension of the Demonstration is projected to last for no more than two years. Under the Demonstration, DoD reimburses the four participating DVA facilities at a negotiated rate which covers all professional and institutional services associated with the inpatient bed days required for the initial

evaluation, rehabilitation and subsequent re-evaluations of TRICARE/CHAMPUS patients. The beneficiary cost-shares applicable under TRICARE/CHAMPUS apply under the Demonstration Project.

The TRICARE Management Activity provides for demonstration claim processing via specific contractual arrangement with a contractor. The contractors are not involved in clinical issues but direct patients to the nearest participating DVA facility for evaluation.
