

**SUPPLEMENTARY INFORMATION:** The project will be approximately 115 miles in length and extend from Tri-State's existing Walsenburg Substation located at Walsenburg, Colorado, and interconnect to a proposed substation site near Gladstone, New Mexico. Facilities will be located in Huerfano and Las Animas Counties, Colorado, and Colfax County, New Mexico.

Alternative Corridor 2 was identified in the Environmental Assessment as the preferred corridor. The northern section of the preferred corridor was subsequently modified based on additional public input as a result of the local permitting process in Las Animas County, Colorado. Based on its environmental assessment of the proposed project, RUS has concluded that the construction, operation and maintenance of the project will not have a significant impact on the quality of the human environment. Therefore, RUS will not prepare an environmental impact statement for this project.

Copies of the FONSI have been sent to Federal, State, and local agencies and the public who have previously requested a copy. The FONSI can also be reviewed at libraries located in communities within the project area and at offices of San Isabel Electric Association in Pueblo, Walsenburg, and Trinidad, Colorado; Springer Electric Cooperative, Inc., in Springer, New Mexico; and Southwestern Electric Cooperative, Inc., in Clayton, New Mexico.

**SUPPLEMENTARY INFORMATION:** On July 14, 2000, the Committee for Purchase From People Who Are Blind or Severely Disabled published notices (65 FR 43736) of proposed additions to the Procurement List. After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the services and impact of the additions on the current or most recent contractors, the Committee has determined that the services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4. I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:
