SMALL BUSINESS ADMINISTRATION

13 CFR Part 121

Small Business Size Regulations; Size Standards and the North American Industry Classification System; Correction

AGENCY: Small Business Administration.

ACTION: Final rule; correction.

SUMMARY: This is a technical correction to the final rule that the Small Business Administration (SBA) published in the **Federal Register** (65 FR 30836-30863) on May 15, 2000. In that rule the Small Business Administration adopted a new table of small business size standards for industries as they are defined in the North American Industry Classification System (NAICS). SBA is providing below a complete replacement table for the one that was contained in that final rule. The table that was published on May 15, 2000, contained errors that occurred during the printing process. The errors are significant in nature and number, and SBA believes that they would be misleading if not corrected.

SBA is including, as well, minor editorial changes, although if they were not made, they would not mislead or otherwise affect the correct use of the size standards. This table also includes updated size standards based on two other final rules that SBA subsequently published in the **Federal Register**. Effective October 1, 2000, all users of small business size standards must use the table of small business size standards below, in place of the table included in the May 15, 2000, **Federal Register**.

DATES: Effective on October 1, 2000.

FOR FURTHER INFORMATION CONTACT: Carl Jordan, Office of Size Standards, at (202) 205-6618.

SUPPLEMENTARY INFORMATION: SBA is publishing below a new complete table of small business size standards based on industries as they are defined in NAICS. This table corrects, updates and replaces the table included in the final rule SBA published in the **Federal Register** on May 15, 2000. The originally published table included a number of errors that occurred during the printing process. Because the errors are significant in nature and number, SBA believes that merely listing the corrections is not sufficient. Therefore, this new full table replaces the table found in the final rule published on May 15, 2000.
