ENVIRONMENTAL PROTECTION AGENCY

[FRL-6865-2]

Clean Water Act Section 303(d): Availability of Total Maximum Daily Loads (TMDLs) and Final Determination That TMDLs Are Not Needed

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability and final determination.

SUMMARY: This notice announces the availability for comment of the administrative record file for six TMDLs prepared by EPA Region 6 for waters listed in Louisiana's Mermentau and Vermilion/Teche river basins, under section 303(d) of the Clean Water Act (CWA). The above TMDLs were completed in response to a Court Order dated October 1, 1999, in the lawsuit *Sierra Club, et al. v. Clifford et al.*, No. 96-0527, (E.D. La. Oct. 1, 1999). Under this court order, EPA is required to establish TMDLs when needed for waters on the Louisiana 1998 section

303(d) list by December 31, 2007. This notice also announces the Agency's final determination that TMDLs are not needed for forty-six waterbody/pollutant combinations in the Mermentau and Vermilion/Teche river basins and two waterbody/pollutant combinations in the Pearl River Basin because the data show that the waterbodies are meeting Louisiana's Water Quality Standards for the pollutants involved.

DATES: Comments on the six completed TMDLs must be submitted to EPA on or before October 6, 2000.

ADDRESSES: Comments on the six TMDLs should be sent to Ellen Caldwell, Environmental Protection Specialist, Water Quality Protection Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Ave., Dallas, TX 75202-2733. For further information, contact Ellen Caldwell at (214) 665-7513. Copies of the TMDLs and their respective calculations may be viewed at www.epa.gov/region6/water/tmdl.htm, or obtained by writing or calling Ms. Caldwell at the above address. The administrative record file for these TMDLs is available for public inspection at the above address as well. Please contact Ms. Caldwell to schedule an inspection.

FOR FURTHER INFORMATION CONTACT: Ellen Caldwell at (214) 665-7513.

SUPPLEMENTARY INFORMATION: In 1996, two Louisiana environmental groups, the Sierra Club and Louisiana Environmental Action Network (Plaintiffs), filed a lawsuit in Federal Court against the United States Environmental Protection Agency (EPA), styled *Sierra Club, et al. v. Clifford et al.*, No. 96-0527, (E.D. La. Oct. 1, 1999). Among other claims,

plaintiffs alleged that EPA failed to establish Louisiana TMDLs in a timely manner.

In an order dated October 1, 1999, the Court disapproved EPA's proposed 12-year schedule for the establishment of Louisiana TMDLs. Among other things, the court ordered the following:

(1) The defendants, EPA, shall prepare total maximum daily loads for Louisiana waters identified as not meeting water quality standards according to the following schedule:

(a) By December 31, 1999, for all of the waters in the Mermentau and Vermilion/Teche basins.

(b) By December 31, 2001, for all of the waters in the Calcasieu and Ouachita basins.

(c) By December 31, 2003, for all of the waters in the Barataria and Terrebonne basins.

(d) By December 31, 2005, for all of the waters in the Red and Sabine basins.

(e) By December 31, 2006, for all of the waters in the Pontchartrain basins.

(f) By December 31, 2007, for all of the waters in the Mississippi, Atchafalaya, and Pearl basins.

(2) The defendants, EPA, shall add or delete waters to the schedule as new data confirms that the waters are or are not meeting water quality standards. If a water is deleted from the identification of waters that do not meet water quality standards, the defendants need not prepare a total maximum daily load for the water. If an additional water is identified as not meeting water quality standards, the defendants shall prepare a total maximum daily load for the water by the applicable deadline in the schedule if the water is identified at least one year prior to the deadline. If the additional water is identified less than one year before the total maximum

load would be due under the schedule, the defendants shall have discretion to prepare the load by the scheduled deadline or to extend the schedule.

EPA Seeks Comments on Six TMDLs

EPA regulations provide for public participation when the Agency establishes TMDLs. By this notice, and

pursuant to 40 CFR 130.7(d)(2), EPA is seeking comment on the following six TMDLs for waters located within the Mermentau and Vermilion/Teche basins:

Subsegment	Waterbody name	Pollutant
050102	Bayou Joe Marcel	Fecal Coliform.
050201	Bayou Plaquemine-Brule—Headwaters to Bayou Des Cannes	Total Dissolved Solids.
050501	Bayou Que de Tortue—Headwaters to Mermentau River	Total Dissolved Solids.
060204	Bayou Courtableau—Origin To West Atchafalaya Borrow Pit Canal	Fecal Coliform.
060204	Bayou Courtableau—Origin To West Atchafalaya Borrow Pit Canal	Sulfate.
060208	Bayou Boeuf—Headwaters To Bayou Courtableau	Total Dissolved Solids.

The administrative record file and calculations for these six TMDLs are available for review. EPA requests the public to provide any significant data and information that may impact these TMDLs. EPA will review all data and information submitted during the public comment period and revise the six TMDLs where appropriate. EPA will then forward the TMDLs to the Court and the Louisiana Department of Environmental Quality (LDEQ). LDEQ will incorporate the TMDLs into its current water quality management plan.

Final Notice on Delisting 48 Waterbody/Pollutant Combinations

Through this notice, EPA also is providing final notice of its determination on February 25, 2000, that TMDLs are not needed for forty-six waterbody/pollutant combinations in the Mermentau and Vermilion/Teche river basins and two combinations in the Pearl River Basin.

On October 28, 1999, in response to the court order dated October 1, 1999, EPA disapproved Louisiana's 1998 CWA section 303(d) list. On November 1, 1999, also in response to the October 1 court order, EPA submitted its court-ordered CWA section 303(d) list and administrative record. EPA made this court-ordered 303(d) list available for public comment 64 FR 66635 (November 29, 1999). On February 25, 2000, after review of water quality data and monitoring information and public comments, EPA issued a modified section 303(d) list. Consistent with paragraph three of the October 1 order, quoted above, EPA determined that forty-six waterbody/pollutant combinations in the Mermentau and Vermilion/Teche basins and two combinations in the Pearl River Basin should be removed from the court-ordered 303(d) list because the data and information show that the waterbodies are meeting Louisiana's Water Quality Standards for the pollutants involved. Detailed explanations for these determinations are set out in the

Decision Document for the modified section 303(d) list and in Appendix E to that document, which provides as follows:

EPA requested the public to provide any significant data or information warranting revision of EPA's decision to remove these 48 waterbody/pollutant combinations in 65 FR 19763 (April 12, 2000). No comments, data or information were received. Thus, EPA affirms its determination that TMDLs are not needed for the above-listed forty-eight waterbody/pollutant combinations.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

August 28, 2000.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the

information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before October 6, 2000. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judy Boley, Federal Communications Commission, Room 1-C804, 445 12th Street, SW, DC 20554 or via the Internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judy Boley at 202-418-0214 or via the Internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0719.

Title: Quarterly Report of IntraLATA Carriers Listing Payphone Automatic Number Identifications (ANIs).

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 400 respondents, 1,600 responses.

Estimated Time Per Response: 3.5 hours.

Frequency of Response: Quarterly reporting requirement, recordkeeping requirement, and third party disclosure requirement.

Total Annual Burden: 5,600 hours.

Total Annual Cost: N/A.

Needs and Uses: IntraLATA carriers must submit a quarterly listing of payphone ANIs to the interexchange carriers. This will facilitate resolution of disputed ANIs in the per-call compensation context. The report allows IXC's to determine which dial-around calls are made from payphones. The data, which must be maintained for at least 18 months after the close of a compensation period, will facilitate verification of disputed ANIs.
