SUPPLEMENTARY INFORMATION:

I. Background

Section 115(e) of the Federal Mine Safety and Health Act of 1977 required the Secretary of Labor to publish proposed regulations which provide that mine rescue teams be available for rescue and recovery work to each underground mine in the event of an emergency. Congress considered the ready availability of mine rescue teams in the event of an accident to be vital protection for miners.

In responding to Congressional concerns, MSHA promulgated 30 CFR 49, Mine Rescue Teams. These regulations set standards related to the availability of mine rescue teams; alternate mine rescue capability for small and remote mines and mines with special mining conditions; inspection and maintenance records of mine rescue equipment and apparatus; physical requirements for mine rescue team members and alternates; and experience and training requirements for team members and alternates.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to Mine Rescue Teams; Arrangements for Emergency Medical Assistance; and Arrangements for Transportation for Injured Persons. MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request may be viewed on the Internet by accessing the MSHA Home Page (<http://www.msha.gov>) and selecting "Statutory and Regulatory Information" then "Paperwork Reduction Act submission (<http://www.msha.gov/respwork.htm>)", or by contacting the employee listed above in the **FOR FURTHER INFORMATION CONTACT** section of this notice for a hard copy.
