

previously applicable instructions and requirements; to train personnel to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information.

EPA has identified approximately 8,000 facilities as potentially in the Meat Products Industry. EPA will send the Detailed Survey to approximately 350 sites and will send the Screener Survey to approximately 1,650 sites. The survey recipients will be selected using engineering judgement and statistical sampling methods. The estimated cost to complete the Detailed Survey is approximately \$2,000 per site. The estimated cost for the screener survey is approximately \$70 per site. For approximately 20 facilities, EPA will request five days of influent and effluent analytical data to be collected and sent to EPA labs for analysis. The estimated cost for each of these 20 sites is \$9,500. The estimated total cost for the information collection burden is \$1.03 million.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1961.01 in any inquiry.

Dated: August 30, 2000.

Oscar Morales,

Director, Collection Strategies Division.
