

submitted to HUD for the jurisdiction), must submit a Statement of Inadequate Capacity to HUD. A jurisdiction is defined for purposes of this notice as a CDBG Entitlement Grantee or for non-entitlement areas, the State CDBG Grantee or Indian Tribe. If the jurisdiction is the State, the statement must be signed and submitted by the agency head who signs the State Annual Consolidated Action Plan submitted to HUD and by the agency head responsible for the EPA-authorized lead-based paint certification program (if the State has an EPA-authorized lead-based paint certification program). If the jurisdiction is an Indian Tribe, the statement must be signed and submitted by the chief official of the Indian Tribe and by the individual responsible for the EPA-authorized lead-based paint certification program (if the Indian Tribe has an EPA-authorized lead-based paint certification program). The statement submitted by a State may cover all or part of the CDBG non-entitlement area of the State. The Statement of Inadequate Capacity should be circulated to and reviewed by local officials with responsibility for housing and public or environmental health in the State or locality.

The Statement of Inadequate Capacity must be submitted to: David E. Jacobs, Deputy Director, Office of Healthy Homes and Lead Hazard Control, U.S. Department of Housing and Urban Development, Room P-3202, 451 7th Street, SW, Washington, DC 20410-0500.

Specifically, the jurisdiction must indicate in the Statement of Inadequate Capacity that trained, licensed (certified) or accredited personnel or firms are either not available in sufficient numbers or are not available at a reasonable cost to make it practicable to comply with the Lead Safe Housing Regulation between September 15, 2000, and March 15, 2001. The statement must indicate the specific requirements, as well as the particular programs or types of assistance covered by the Lead Safety regulation for which capacity to comply does not yet exist. If the jurisdiction's claim of inadequate capacity is based on unreasonable cost, the statement must be documented by an analysis of actual bids. A sample Statement of Inadequate Capacity which HUD recommends jurisdictions use will be available on the HUD lead website at www.hud.gov/lea.

This Statement of Inadequate Capacity from a jurisdiction must be received by HUD no later than November 15, 2000. At the same time the statement is submitted to HUD, a copy of this statement must also be

submitted to the State agency responsible for the lead-based paint certification program or to the regional EPA office if EPA is operating the lead-based paint certification program directly.

The jurisdiction is required to submit a Transition Implementation Plan with its Statement of Inadequate Capacity no later than December 15, 2000, explaining how the jurisdiction will take the necessary steps to ensure that an adequate supply of personnel or contractors will be available by March 15, 2001. Failure to submit the plan by December 15, 2000, will result in the rescission of the transition assistance.

The plan must include the following: (1) An assessment of actual existing capacity and the additional number and type of personnel that need to be trained and/or certified; (2) how training will be obtained; (3) how assisted housing with the greatest risks and greatest opportunity to control lead-based paint hazards will be prioritized using existing personnel or contractors; (4) how coordination with the State agency responsible for certification of lead hazard control personnel will be achieved; and (5) a schedule of activities that will enable the jurisdiction to obtain compliance as rapidly as possible, but no later than March 15, 2001. Jurisdictions must agree to make the Transition Implementation Plan publicly available. Transition Implementation Plan Guidance will be available on the HUD lead website at www.hud.gov/lea.

If the Statement of Inadequate Capacity from a jurisdiction meets all of the requirements set out in this notice, the Department will conclude that program participants in the jurisdiction lack the capacity to undertake safely and responsibly the evaluation and reduction of lead-based paint and lead-based paint hazards under the Lead Safe Housing Regulation and that transition assistance is needed to build capacity. The Department will publish in the **Federal Register** and make available on the HUD lead website at www.hud.gov/lea a list of the jurisdictions that have applied for transition assistance. HUD will conduct periodic audits of these Statements of Inadequate Capacity and may rescind transition assistance based on a false statement of inadequate capacity.

Jurisdictions that lack capacity will not be required to comply with the affected requirements of the Lead Safe Housing Regulation during a transition period beginning on September 15, 2000 and ending on March 15, 2001. During this transition period, program participants will continue to comply

with HUD's lead-based paint regulations that were effective before September 15, 2000. If there remains a lack of capacity of trained or licensed (certified) professionals to conduct activities under the Lead Safe Housing Regulation at the end of the transition period, the jurisdiction must provide for HUD approval supplemental documentation in the form of an updated Transition Implementation Plan to justify an extension of the transition period consistent with their Annual Consolidated Action Plan schedule.

Component 2—Phase In Period for Post-1960 Properties Receiving Tenant-Based Assistance.

HUD will provide a one year transition period—until September 15, 2001—for all properties built after 1960 receiving only tenant-based assistance that are occupied by a child under six. During this transition period, program participants will continue to comply with HUD's lead-based paint regulations that were effective for this program before September 15, 2000. To receive this transition assistance, no submission by a jurisdiction is required.

Component 3—Phase In Period for Elderly-Occupied Properties Receiving Federal Rehabilitation Assistance Greater Than \$25,000.

HUD will provide a one year transition period—until September 15, 2001—for all properties receiving federal rehabilitation assistance greater than \$25,000 that are occupied by the elderly, where no child resides or is expected to reside. During the transition period, program participants will comply with the requirements in the Lead Safe Housing Regulation for federal rehabilitation assistance between \$5,000 and \$25,000. To receive this transition assistance, no submission by a jurisdiction is required.
