Filing of Plats of Survey; Oregon/ Washington**AGENCY:** Bureau of Land Management.**ACTION:** Notice.

SUMMARY: The plats of survey of the following described lands are scheduled to be officially filed in the Oregon State Office, Portland, Oregon, thirty (30) calendar days from the date of this publication.

Williamette Meridian

Oregon

T. 25 S., R. 2 W., accepted August 4, 2000

T. 22 S., R. 3 W., accepted August 16, 2000

Washington

T. 2 N., R. 7 E., accepted August 10, 2000

T. 30 N., R. 38 E., accepted August 11, 2000

T. 12 N., R. 8 E., accepted August 11, 2000

If protests against a survey, as shown on any of the above plat(s), are received prior to the date of official filing, the filing will be stayed pending consideration of the protest(s). A plat will not be officially filed until the day after all protests have been dismissed and become final or appeals from the dismissal affirmed.

The plat(s) will be placed in the open files of the Oregon State Office, Bureau of Land Management, 1515 S.W. 5th Avenue, Portland, Oregon 97201, and will be available to the public as a matter of information only. Copies of the plat(s) may be obtained from the

above office upon required payment. A person or party who wishes to protest against a survey must file with the State Director, Bureau of Land Management, Portland, Oregon, a notice that they wish to protest prior to the proposed official filing date given above. A statement of reasons for a protest may be filed with the notice of protest to the State Director, or the statement of reasons must be filed with the State Director within thirty (30) days after the proposed official filing date.

The above-listed plats represent dependent resurveys, survey, and subdivision.

FOR FURTHER INFORMATION CONTACT:

Bureau of Land Management, (1515 S.W. 5th Avenue), P.O. Box 2965, Portland, Oregon 97208.

Dated: August 24, 2000.

BILLING CODE 4310-33-M**DEPARTMENT OF THE INTERIOR****National Park Service****Gaviota Coast Seashore Feasibility Study, Santa Barbara County, CA; Notice of Intent To Prepare an Environmental Impact Statement**

SUMMARY: In accordance with § 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4321 et seq.), the National Park Service (NPS) is undertaking a conservation planning and impact analysis process to identify and assess potential impacts of alternative resource protection and visitor use concepts and other considerations within the Gaviota Coast Seashore Feasibility Study area in Santa Barbara County. Notice is hereby given that a public scoping process has been initiated to prepare an environmental impact statement (EIS) and feasibility study report. The purpose of the scoping process is to elicit public comment regarding the full spectrum of public issues and concerns, including a suitable range of alternatives, appropriate boundaries, and the nature and extent of potential environmental impacts and appropriate mitigation strategies which should be addressed in the EIS process.

Background: As authorized by Pub.L. 106-113, and H.R. 3194 Conference Report, November 17, 1999, Title III, § 326, the NPS is conducting a feasibility study to determine the potential for designating the Gaviota Coast as a unit of the National Park System. The Gaviota Coast study area

includes approximately 76 miles of coastline and 200,000 acres of land. It is entirely within Santa Barbara County, California, and extends from Coal Oil Point in Isla Vista northerly to Point Sal at the northern boundary of Vandenberg Air Force Base. The study area boundary extends inland to the watershed crests except in the Santa Ynez Valley, where it is primarily limited to Vandenberg Air Force Base. Inshore coastal waters will also be addressed in the feasibility study.

In conducting the Gaviota Coast feasibility study, the NPS will evaluate the national significance of the area's natural, cultural, and recreational resources. The NPS will also assess the area's suitability and feasibility to be a unit of the National Park System, whereby factors which the NPS study team will evaluate include: Whether the Gaviota Coast includes types or quality of resources not already adequately represented in the National Park System; whether long-term protection and public use of the area are feasible, and; whether the area can be adequately protected and administered at a reasonable cost.

The NPS will also consider: alternative boundaries and strategies for the management, protection and use of significant resources within the overall study area, including management by other public agencies or the private sector; technical or financial assistance available from established programs or special initiatives and partnerships; alternative designations to a National Seashore (e.g., Heritage Area), and; cooperative management by NPS and other entities.

After public input and review of a draft feasibility study report, alternatives will be identified and evaluated, and the results transmitted to Congress in a final feasibility study report.

Scoping to Date/Comments: Various newsletters and press releases issued during the initial scoping process for environmental impact analysis indicated initial consideration had been given to preparing an Environmental Assessment. Preliminary public information activities were undertaken beginning in January 2000. These included three public meetings in Santa Barbara, Goleta, and Lompoc, as well as two invitational workshops in Gaviota to explore desired future conditions for the coast. In addition, scoping meetings were held with a wide representation of stakeholder groups and interested organizations. Approximately 200 responses were received by letter, comment sheets, e-mail, and Internet web page forms. Two newsletter
