Florida: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Florida has applied to EPA for Final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant final authorization to Florida. In the "Rules and Regulations" section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the immediate final rule. Unless we get written comments which oppose this authorization during the comment period, the immediate final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose this action, we will withdraw the immediate final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

DATES: Send your written comments by October 18, 2000.

ADDRESSES: Send written comments to Narindar Kumar, Chief, RCRA Programs Branch, Waste Management Division, U.S. Environmental Protection Agency, The Sam Nunn Atlanta Federal Center, 61 Forsyth Street, SW, Atlanta, Georgia 30303-3104. You can examine copies of the materials submitted by Florida during normal business hours at the following locations: EPA Region 4 Library, The Sam Nunn Atlanta Federal Center, 61 Forsyth Street, SW, Atlanta, Georgia 30303-3104, Phone number: (404) 562-8190; or The Florida Department of Environmental

National Oil and Hazardous Substances; Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed direct final deletion of the Cliff/Dow Dump Superfund Site (Site) from the National Priorities List (NPL).

SUMMARY: The EPA proposes to delete the Cliff/Dow Dump Superfund site (Site) from the NPL and requests public comment on this action. The NPL constitutes appendix B to part 300 of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) as amended. EPA has determined that the Site currently poses no significant threat to public health or the environment, as defined by CERCLA, and therefore, further remedial measures under CERCLA are not appropriate. We are publishing this proposed rule without prior notification because the Agency views this as a noncontroversial revision and anticipates no dissenting comments. A detailed rationale for this proposal is set forth in the direct final rule published elsewhere in this issue of the **Federal Register**. If no dissenting comments are received, the deletion will become

effective. If EPA receives dissenting comments, the direct final action will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting should do so at this time.

DATES: Comments concerning this action must be received by October 18, 2000.
