Title: Section 76.922, Rates for Basic Service Tiers and Cable Programming Tiers.

Form Number: N/A.
Type of Review: Extension of a currently approved collection.
Respondents: Business or other for-profit entities; and State, Local, or Tribal Government.
Number of Respondents: 4,475.
Estimate Time Per Response: 1 to 12 hours.
Frequency of Response: On occasion reporting requirements.
Total Annual Burden: 9,150 hours.
Total Annual Costs: None.
Needs and Uses: 47 CFR 76.922, in relevant part, provides that cable operators may adjust their permissible rates to reflect the rate they would be charging if they had been permitted to include increases in external costs occurring between September 30, 1992, and their initial date of regulation reduced by inflation increases already received with respect to those costs. This section also provides that qualified small systems using the streamlined rate reduction process must notify subscribers, the LFA, and the FCC, and it allows such small systems to increase rates to recover the costs of headend

upgrades. The Commission uses the information in this collection to ensure that qualified small systems have additional incentives to add channels and that small systems are able to recover costs for headend upgrades when doing so.
