**SUPPLEMENTARY INFORMATION:****Economic Adjustment Assistance**

(Catalog of Federal Domestic Assistance (CFDA) No. 11.307)

**Funding Availability**

Funds in the amount of \$10.0 million are available and shall remain available until expended. These funds are provided under Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2000 (PL 106-78, Sec. 817), October 22, 1999, to be transferred to the Department of Commerce and administered under Section 209 of the Public Works and Economic Development Act of 1965, as amended (PWEDA).

**Eligibility**

Information on eligibility requirements for applicants and areas can be found in EDA's regulation at 13 CFR, Chapter III.

**Grant Rates**

Grant rates, as established under PWEDA and regulations at 13 CFR 301.4(b) may vary, if permitted by PWEDA and its implementing regulations, and may depend upon factors such as types of applicant, relative needs and financial capacity of applicants.

**Selection Process**

EDA will review proposals to evaluate eligibility, evaluation criteria, and funding priorities before inviting a full application for final funding consideration. It is anticipated that proposals will exceed the amount of funding available. Interested parties should submit proposals directly to the EDR for Alaska or to the Seattle Regional Office (see "For Further Information") using the standard preapplication form for EDA assistance (ED-900P, OMB Control No. 0610-0094).

EDA will evaluate project proposals in accordance with, as appropriate, 13 CFR Part 304, 13 CFR 308.4 (65 FR 2530 at 2532, January 18, 2000), and the criteria will be approximately of equal importance.

Proposals under this funding announcement must demonstrate how the EDA assistance will help the eligible area recover from the economic adjustment problems caused by the fisheries failure. Proposals for

implementation grants must also demonstrate that the request for assistance has been preceded by sound planning, consistent with EDA regulations at 13 CFR 301.3.

In meeting EDA requirements for a strategy or Comprehensive Economic Development Strategy, EDA may accept for example: a State Emergency Recovery Plan, or the product of an equivalent state or local strategic economic recovery planning process with short-term and long-term goals.

Given the limited funds available from this appropriation, the amount awarded will be relative to the amount of economic distress/damage sustained by the community (applicants must be able to demonstrate need based on economic distress/damage resulting from the disaster).

EDA will consider the following funding priorities which will be the basis for selecting applications to be funded under this Notice. Priority numbers (1) and (2) are roughly equivalent and more important than the others. The funding priorities are as follows:

1. Projects located in areas that suffered the highest levels of economic injury, as a result of the disaster, as compared to other disaster areas.
2. Projects located in disaster impacted areas that had previously been experiencing high levels of economic distress.
3. Projects which leverage EDA funds with state, local, private, and other Federal assistance efforts.
4. Projects that restore, upgrade or enhance the reliability of critical infrastructure/public facilities to current building, environmental, and safety standards or codes, and are essential to stabilizing the economic base of the disaster area.
5. Projects that enhance/stimulate sustainable economic development and/or otherwise mitigate the physical and/or economic dislocation that could be caused by recurring future disaster.
6. Projects that assist the restoration of businesses, stimulate the development of new businesses and accelerate the development of new job opportunities for dislocated individuals within the affected areas.
7. Projects that enhance opportunities for economic diversification.

The letter allowing the early start will be null and void if the project is not subsequently approved for funding by the grants officer. Approval of an early start does not constitute project approval. Applicants should be aware that if they incur any costs prior to an award being made they do so solely at their own risk of not being reimbursed by the Government. Notwithstanding any verbal or written assurance that may have been received, there is no obligation on the part of DoC to cover preaward costs. Additionally, EDA also requires that compliance with environmental regulations, in accordance with NEPA, be completed before construction begins.

K. If an application is selected for funding, EDA has no obligation to provide any additional future funding in connection with an award. Renewal of an award to increase funding or extend the period of performance is at the sole discretion of EDA.
