## DEPARTMENT OF THE INTERIOR

### National Park Service

#### **Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the American Museum of Natural History, New York, NY**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the American Museum of Natural History, New York, NY.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by American Museum of Natural History professional staff in consultation with representatives of the Muckleshoot Indian Tribe of the Muckleshoot Reservation, Washington; and the Suquamish Indian Tribe of the Port Madison Reservation, Washington.

At an unknown date, human remains representing a minimum of one

individual were collected by an unknown individual from Alki Point, Seattle, King County, WA. Also at an unknown date, these human remains came into the possession of the American Museum of Natural History and may never have been accessioned into the collections. No known individual was identified. No associated funerary objects are present.

Based on the assigned culture name, "Salish", and the geographic location where these human remains were found, this individual has been identified as Native American. These human remains derive from the post-contact territory of the Muckleshoot Indian Tribe of the Muckleshoot Reservation, Washington; and the Suquamish Indian Tribe of the Port Madison Reservation, Washington. Based on geographical evidence and on archeological expert opinion, these human remains are most likely culturally affiliated with the Muckleshoot Indian Tribe of the Muckleshoot Reservation, Washington; and the Suquamish Indian Tribe of the Port Madison Reservation, Washington.

Based on the above-mentioned information, officials of the American Museum of Natural History have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of a minimum of one individual of Native American ancestry. Officials of the American Museum of Natural History also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Muckleshoot Indian Tribe of the Muckleshoot Reservation, Washington; and the Suquamish Indian Tribe of the Port Madison Reservation, Washington. This notice has been sent to officials of the Muckleshoot Indian Tribe of the Muckleshoot Reservation, Washington; and the Suquamish Indian Tribe of the Port Madison Reservation, Washington. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Martha Graham, Director of Cultural Resources, American Museum of Natural History, Central Park West at 79th Street, New York, NY 10024-5192, telephone (212) 769-5846, before October 20, 2000. Repatriation of the human remains to the Muckleshoot Indian Tribe of the Muckleshoot Reservation, Washington; and the Suquamish Indian Tribe of the Port Madison Reservation, Washington may begin after that date if no additional claimants come forward.

Dated: September 14, 2000.

**John Robbins,**

*Assistant Director, Cultural Resources Stewardship and Partnerships.*

## DEPARTMENT OF JUSTICE

### **Notice of Lodging of Consent Decree Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act**

In accordance with Department policy, the Department of Justice gives notice that a proposed partial consent decree in the consolidated cases captioned *United States v. Cantrell, et al.*, Civil Action No. C-1-97-981 (S.D. Ohio) and *United States v. Ohio Power Co., et al.*, Civil Action No. C-1-98-247 (S.D. Ohio) was lodged with the United States District Court for the Southern District of Ohio, Western Division, on September 1, 2000, pertaining to the Automatic Containers Superfund Site (the "Site"), located near Ironton, in Lawrence County, Ohio. The proposed consent decree would resolve certain civil claims of the United States for recovery of unreimbursed past response costs under section 107 of the Comprehensive Environmental Response, Compensation and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9607, against one defendant, Amcast Industrial Corporation ("Amcast").

Through seven prior partial consent decrees approved by the Court, the United States settled with 34 first-party and third-party defendants, recovering nearly \$960,000 in CERCLA response costs that the United States has to date incurred in connection with the Site. The proposed consent decree, captioned "Partial Consent Decree with Settling Defendant Amcast Industrial Corporation (f/k/a Dayton Malleable, Inc.)," would provide for payment of an additional \$650,000, which is substantially all of the United States' remaining past response costs for the Site. The proposed Consent Decree also would constitute a declaratory judgment that Amcast is responsible for any future CERCLA response costs associated with the Site.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, United States Department of Justice, Washington, D.C. 20530, and should refer to *United States*
