Needs and Uses: Executive Order (EO) 12829, "National Industrial Security Program (NISP)", stipulates that the Secretary of Defense shall serve as the

Executive Agent for inspecting and monitoring the contractors, licensees, and grantees who require or will require access, to or who store or will store classified information; and for determining the eligibility for access to classified information of contractors, licensees, and grantees and their respective employees. EO 12829 also authorizes the Executive Agent to issue, after consultation with affected agencies, standard forms that will promote the implementation of the NISP. The specific requirements necessary to protect classified information released to private industry are set forth in DoD 5200.22M, "National Industrial Security Program Operating Manual (NISPOM); they must execute DD Form 441, "Department of Defense Security Agreement", which is the initial contract between industry and the government. This legally binding document details the responsibility of both parties and obligates the contractor to fulfill the requirements outlined in DoD 5220.22M. The DD Form 441-1, Appendage to Department of Defense Security Agreement," is used to extend the agreements to branch offices of the contractor. SF Form 328, "Certificate Pertaining to Foreign Interests," must be submitted to provide certification regarding elements of Foreign Ownership, Control or Influence (FOCI) as stipulated in paragraph 2-302b of the NISPOM.

Frequency: One time and/or on occasion (e.g. initial facility clearance processing, when the respondent changes: name, organizational structure, moves; or upon request, etc.)

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The execution of the DD Form 441, 441-1 and SF 328 is a factor in making a determination as to whether a contractor is eligible to have a facility security clearance and/or participate in the National Industrial Security Program (NISP). It is also a legal basis for imposing NISP security requirements on eligible contractors. These requirements are necessary in order to preserve and maintain the security of the United States through establishing standards to

prevent the improper disclosure of classified information. DoD estimates the annual usage of the DD Form 441, 441-1 and SF 328 to be 3,200. In addition, the Department of Energy estimates the usage of the SF 328 to be 500 per year. NRC estimated that usage of the SF 328 is zero at this time. The form is authorized for local reproduction and will be available electronically on the World Wide Web. The forms will display OMB approval number 0704-0194.
