NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Part 1845

Property Reporting Requirements—Correction

AGENCY: National Aeronautics and Space Administration (NASA)

ACTION: Interim rule: correction.

SUMMARY: This is a correction of the amendatory language of item 2 of the Property Reporting Requirements interim rule published September 11, 2000.

EFFECTIVE DATE: September 11, 2000

FOR FURTHER INFORMATION CONTACT: Celeste Dalton, NASA, Office of Procurement, Contract Management Division (Code HK), 202-358-1645.

SUPPLEMENTARY INFORMATION:

A. Background

The amendatory language at item 2 of the interim rule on Property Reporting

Requirements published in the **Federal Register** on September 11, 2000 (65 FR 54813—54816) incorrectly identified all of subpart 1845.71 as being revised. The effect of the error was the inadvertent omission of section 1845.7102, Instructions for preparing DD Form 1419. This correction revises the amendatory language for item 2 to indicate that only sections 1845.7101, 1845.7101-1, 1845.7101-2, 1875.7101-3, 1845.7101-4, and 1845.7101-5 are revised.

List of Subjects in 48 CFR Part 1845

Government Procurement.

Tom Luedtke,

Associate Administrator for Procurement.

Accordingly, 48 CFR Part 1845 is amended as follows:

1. The authority citation for 48 CFR Part 1845 continues to read as follows:

Authority: 42 U.S.C. 2473(c)(1).

2. Correct item 2 in the first column of page 54814, by deleting the Table of Contents and revising the amendatory instruction to read as follows:

PART 1845—GOVERNMENT PROPERTY

2. In subpart 1845.71 revise sections 1845.7101, 1845.7101-1, 1845.7101-2, 1875.7101-3, 1845.7101-4, and 1845.7101-5 to read as follows:

RIN 0648-AN73

International Fisheries; Pacific Tuna Fishery in the Eastern Pacific Ocean

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: 2000 Quota and Associated Management Measures for Yellowfin Tuna.

SUMMARY: NMFS announces the year 2000 yellowfin tuna harvest limits and associated management measures for the purse seine and baitboat fisheries for yellowfin tuna in the eastern Pacific Ocean (EPO), consistent with recommendations made by the Inter-American Tropical Tuna Commission

(IATTC) and approved by the Department of State under the terms of the Tuna Conventions Act. The intended effect of this action is to establish allowable harvest limits for the yellowfin tuna fishery.

DATES: Effective September 28, 2000 until December 31, 2000, unless attainment of the quota is reached earlier. If the quota is reached before December 31, 2000, NOAA will publish announcement of that date in the **Federal Register**.

ADDRESSES: Submit comments to Rebecca Lent, Regional Administrator, Southwest Region (Regional Administrator), NMFS, 501 W. Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213.

FOR FURTHER INFORMATION CONTACT: Svein Fougner, Sustainable Fisheries Division, Southwest Region, NMFS, 562-980-4040.

SUPPLEMENTARY INFORMATION: The U.S. is a member of the IATTC, which was established under the Convention for the Establishment of an Inter-American Tropical Tuna Commission signed in 1949. The IATTC was established to provide an international arrangement to ensure the effective international conservation and management of highly migratory species of fish in the convention area. The IATTC has maintained a scientific research and fishery monitoring program for many years and annually assesses the status of stocks of tuna and the fisheries to determine appropriate harvest limits or other measures to prevent overexploitation of the stocks and to promote viable fisheries. The area generally covered by the management measures recommended under the Convention is all waters of the EPO between 40° N. lat. and 40° S. lat. west to 150° W. long. Within the area covered by the Convention, the IATTC has designated a smaller Commission Yellowfin Regulatory Area (CYRA) in which the total catch of yellowfin tuna may be limited. The boundaries of the CYRA may be found at 50 CFR part 300, subpart C.

At its annual meeting in June 2000, the IATTC adopted a resolution dealing with yellowfin tuna conservation. This resolution set an overall harvest quota of 265,000 metric tons (mt) for yellowfin tuna taken by purse seine vessels in the CYRA, except that the purse seine and baitboat fisheries in the CYRA are to close December 1, 2000, even if the quota has not been reached. The IATTC also recommended that certain waters be closed to purse seine fishing when the overall catch of yellowfin tuna reaches 240,000 mt. This document
