

**SUPPLEMENTARY INFORMATION:** Under section 4041 of the Employee Retirement Income Security Act of 1974, as amended, a single-employer pension plan may terminate voluntarily only if it satisfies the requirements for either a standard or a distress termination. Pursuant to ERISA section 4041(b), for standard terminations, and section 4041(c), for distress terminations, and the PBGC's termination regulation (29 CFR part 4041), a plan administrator wishing to terminate a plan is required to submit specified information to the PBGC in support of the proposed termination and to provide specified information regarding the proposed termination to third parties (participants, beneficiaries, alternate payees, and employee organizations). In the case of a plan with participants or beneficiaries who cannot be located when their benefits are to be distributed, the plan administrator is subject to the requirements of ERISA section 4050 and the PBGC's missing participants regulation (29 CFR part 4050).

The PBGC estimates that 1,564 plan administrators will be subject to the collection of information requirements in the PBGC's termination and missing participants regulations each year, and that the total annual burden of complying with these requirements is 2,246 hours and \$1,864,600. (Much of the work associated with terminating a plan is performed for purposes other than meeting these requirements.)

Comments on these collection of information requirements may address (among other things)—

- Whether the collection of information is necessary for the proper performance of the functions of the PBGC, including whether the information will have practical utility;
- The accuracy of the PBGC's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhancing the quality, utility, and clarity of the information to be collected; and
- Minimizing the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

## SOCIAL SECURITY ADMINISTRATION

### Agency Information Collection Activities: Proposed Request and Comment Request

In compliance with Public Law 104-13, the Paperwork Reduction Act of 1995, SSA is providing notice of its information collections that require submission to the Office of Management and Budget (OMB). SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility and clarity; and on ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology.

I. The information collections listed below will be submitted to OMB within 60 days from the date of this notice. Therefore, comments and recommendations regarding the information collections would be most useful if received by the Agency within 60 days from the date of this publication. Comments should be directed to the SSA Reports Clearance Officer at the address listed at the end of this publication. You can obtain a copy of the collection instruments by calling the SSA Reports Clearance Officer on (410) 965-4145, or by writing to him at the address listed at the end of this publication.

1. National Teacher Questionnaire (SSA-5665-BK), and Information About the Working Age Child (SSA-5665-SUPP)-0960-New. The information collected on forms SSA-5665-BK and SSA-5665-Sup is used by the Social Security Administration (SSA) and the State Disability Determination Services (DDS) to obtain descriptions of children claiming SSI benefits based on disability and their ability to function on a daily basis. The forms will be used for initial determinations of eligibility, in appeals and in initial continuing disability reviews.

These forms are being developed because the forms currently used by the DDSs vary a great deal in format and content. It was decided that for the sake of a uniform national childhood program (and with this information in hand and the sensitivity of this population), there is a need for a National Teacher Questionnaire and Information About the Working Age Child. The respondents are the educational Community and small businesses that educate and/or employ applicants for Supplemental Security Income for the aged, blind, and Disabled.
