Agency Information Collection Activities: Submission for OMB Review; Comment Request, National Emission Standards for Hazardous Air Pollutants (NESHAP)/Maximum Achievable Control Technology (MACT) for Source Categories Mineral Wool Production**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NESHAP/MACT Subpart DDD, National Emission Standards for Hazardous Air Pollutants/Maximum Achievable Control Technology (MACT) for Wool Manufacturing, OMB Control Number 2060-0362, expiration date 10/31/00. This ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before November 2, 2000.

ADDRESSES: Send comments, referencing EPA ICR No. 1799.02 and OMB Control No. 2060-0362, to the following addresses: Sandy Farmer, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, N.W., Washington, DC 20460; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, N.W., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1799.02. For technical questions about the ICR contact Gregory Fried at EPA by phone at (202) 564-7016 or by email at fried.gregory@epa.gov.

SUPPLEMENTARY INFORMATION:

Title: ICR for NESHAP/MACT Subpart DDD, National Emission Standards for Hazardous Air Pollutants—Mineral Wool Production, OMB Control Number 2060-0362, EPA ICR No. 1799.02. This

is a request for extension of a currently approved collection.

Abstract: The Administrator has judged that Particulate Matter (PM) and Hazardous Air Pollutants (HAP) emissions from mineral wool production plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Owners/operators of mineral wool production plants subject to NESHAP/MACT Subpart DDD must provide notifications to EPA of construction, modification, startups, shut downs, date and results of initial performance tests and provide semiannual reports of excess emissions. Owners/operators of mineral wool production plants are required to install fabric filter bag leak detection systems and then initiate corrective action procedures in the event of an operating problem. Owners/operators of mineral wool production plants subject to NESHAP/MACT Subpart DDD must also continuously monitor and record, (1) The operating temperature of each thermal incinerator, (2) cupola production (melt) rate, and (3) for each curing oven, the formaldehyde content of each binder formulation used to manufacture bonded products. In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published 3/31/00 (65 FR 17258); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 222 hours per response. The initial burden regarding notifications (40 CFR 63.9) and performance testing (40 CFR 63.7) for a new source subject to this subpart is estimated to average 615 hours. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire,

install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Wool Fiberglass Manufacturing Plants.

Estimated Number of Respondents: 13.

Frequency of Response: Initial and semiannual.

Estimated Total Annual Hour Burden: 5,779 hours.

Estimated Total Annualized Capital and Operating & Maintenance Cost Burden: \$100,226.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No.1799.02 and OMB Control No. 2060-0362 in any correspondence.

Dated: September 28, 2000.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request, Registration of Fuels and Fuel Additives: Requirements for Manufacturers**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Registration of Fuels and Fuel Additives: Requirements for Manufacturers (40 CFR 79), OMB Control Number 2060-0150 expiration

date 12/31/2000. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before November 2, 2000.

ADDRESSES: Send comments, referencing EPA ICR No. 0309.10 and OMB Control No. 2060-0150, to the following addresses: Sandy Farmer, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, N.W., Washington, DC 20460; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, N.W., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-mail at Farmer.sandy@epamail.epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 0309.10. For technical questions about the ICR contact James W. Caldwell, (202) 564-9303, fax (202) 565-2085, caldwell.jim@epa.gov.

SUPPLEMENTARY INFORMATION:

Title: Registration of Fuels and Fuel Additives: Requirements for Manufacturers (40 CFR 79), OMB Control Number 2060-0150, EPA ICR Number 0309.10, expiring 12/31/2000. This is a request for an extension of a currently approved collection.

Abstract: Motor vehicles are the major source of air pollution in most urban areas. The Clean Air Act provides the authority to monitor and regulate motor vehicle fuels, additives, and emissions in order to protect public health. Pursuant to the regulations at 40 CFR 79, manufacturers of gasolines, diesel fuels, and additives for those fuels, are required to have their products registered by the EPA prior to their introduction into commerce. This mandatory collection involves providing certain compositional, emissions, and health-related information. A manufacturer may not sell its fuel or additive until it has been registered. The EPA uses this information to identify fuels and additives whose emissions may pose a health risk and as a basis for regulatory action. Most of the compositional information is confidential due to the competitive nature of the fuel and additive industries.

Registration involves providing (1) a chemical description of the fuel or additive, (2) certain technical and marketing information, and (3) any

health-effects information in company files. (The portion of this registration regulation requiring the development of health-effects data is covered by a separate information collection; OMB Control Number 2060-0297, EPA ICR Number 1696.03) Manufacturers are also required to submit periodic reports on production and related information.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 7-11-00, 65 FR 42689. No comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers of gasolines, diesel fuels, and fuel additives.

Estimated Number of Respondents: 780.

Frequency of Response: On occasion, quarterly, annually.

Estimated Total Annual Hour Burden: 18,500 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$27,600.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 0309.10 and OMB Control No. 2060-0150 in any correspondence.

Dated: September 28, 2000.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6880-2]

Notice of Proposed Administrative Settlement Pursuant To The Comprehensive Environmental Response, Compensation, and Liability Act

AGENCY: Environmental Protection Agency.

ACTION: Notice; request for public comment.

SUMMARY: In accordance with Section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement concerning the Eagle Picher Henryetta Superfund Site, ("Site") with the Oklahoma Department of Environmental Quality, ("ODEQ") the City of Henryetta, Oklahoma, ("ACity"), and the United States Environmental Protection Agency ("EPA").

The settlement requires the City to assume future operation and maintenance of the remedy at the Site, record a Notice of Deed Restriction in the property records, and preserve EPA's and ODEQ's right of access.

As soon as reasonably practicable after the effective date of this Agreement, and consistent with Paragraph 26 of the Settlement Agreement, the City shall file in the land records of Okmulgee County a Notice of Deed Restriction notifying subsequent purchasers of the smelter facility portion of the Site that hazardous substances were disposed and will continue to remain in the soils at the former smelter facility.

The settlement includes a covenant not to sue under Section 107 of CERCLA, 42 U.S.C. 9607.

For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the settlement. The Agency will consider all comments received and may withdraw or withhold its consent to the proposed settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public
