SUPPLEMENTARY INFORMATION:

Title: Registration of Fuels and Fuel Additives: Requirements for Manufacturers (40 CFR 79), OMB Control Number 2060-0150, EPA ICR Number 0309.10, expiring 12/31/2000. This is a request for an extension of a currently approved collection.

Abstract: Motor vehicles are the major source of air pollution in most urban areas. The Clean Air Act provides the authority to monitor and regulate motor vehicle fuels, additives, and emissions in order to protect public health. Pursuant to the regulations at 40 CFR 79, manufacturers of gasolines, diesel fuels, and additives for those fuels, are required to have their products registered by the EPA prior to their introduction into commerce. This mandatory collection involves providing certain compositional, emissions, and health-related information. A manufacturer may not sell its fuel or additive until it has been registered. The EPA uses this information to identify fuels and additives whose emissions may pose a health risk and as a basis for regulatory action. Most of the compositional information is confidential due to the competitive nature of the fuel and additive industries.

Registration involves providing (1) a chemical description of the fuel or additive, (2) certain technical and marketing information, and (3) any

health-effects information in company files. (The portion of this registration regulation requiring the development of health-effects data is covered by a separate information collection; OMB Control Number 2060-0297, EPA ICR Number 1696.03) Manufacturers are also required to submit periodic reports on production and related information.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 7-11-00, 65 FR 42689. No comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers of gasolines, diesel fuels, and fuel additives.

Estimated Number of Respondents: 780.

Frequency of Response: On occasion, quarterly, annually.

Estimated Total Annual Hour Burden: 18,500 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$27,600.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 0309.10 and OMB Control No. 2060-0150 in any correspondence.

Dated: September 28, 2000.

Notice of Proposed Administrative Settlement Pursuant To The Comprehensive Environmental Response, Compensation, and Liability Act

AGENCY: Environmental Protection Agency.

ACTION: Notice; request for public comment.

SUMMARY: In accordance with Section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement concerning the Eagle Picher Henryetta Superfund Site, ("Site") with the Oklahoma Department of Environmental Quality, ("ODEQ") the City of Henryetta, Oklahoma, ("ACity"), and the United States Environmental Protection Agency ("EPA").

The settlement requires the City to assume future operation and maintenance of the remedy at the Site, record a Notice of Deed Restriction in the property records, and preserve EPA's and ODEQ's right of access.

As soon as reasonably practicable after the effective date of this Agreement, and consistent with Paragraph 26 of the Settlement Agreement, the City shall file in the land records of Okmulgee County a Notice of Deed Restriction notifying subsequent purchasers of the smelter facility portion of the Site that hazardous substances were disposed and will continue to remain in the soils at the former smelter facility.

The settlement includes a covenant not to sue under Section 107 of CERCLA, 42 U.S.C. 9607.

For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the settlement. The Agency will consider all comments received and may withdraw or withhold its consent to the proposed settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public

inspection at 1445 Ross Avenue, Dallas, Texas 75202-2733.

DATES: Comments must be submitted on or before November 2, 2000.

ADDRESSES: The proposed settlement and additional background information relating to the settlement are available for public inspection at 1445 Ross Avenue, Dallas, Texas 75202-2733.
