SMALL BUSINESS ADMINISTRATION**Small Business Investment Company;
Computation of Alternative Maximum
Annual Cost of Money to Small
Businesses**

13 CFR 107.855 limits the maximum annual Cost of Money (as defined in 13 CFR 107.50) that may be imposed upon a Small Business in connection with Financing by means of Loans or through the purchase of Debt Securities. The cited regulation incorporates the term "Debenture Rate", which is defined in 13 CFR 107.50 as the interest rate, as published from time to time in the **Federal Register** by SBA, for ten year debentures issued by Licensees and funded through public sales of certificates bearing SBA's guarantee.

Accordingly, Licensees are hereby notified that effective the date of publication of this Notice, and until further notice, the Debenture Rate, plus the 1 percent annual fee which is added to this Rate to determine a base rate for computation of maximum Cost of Money, is 8.452 percent per annum.

13 CFR 107.855 does not supersede or preempt any applicable law imposing an interest ceiling lower than the ceiling imposed by its own terms. Attention is directed to section 308(i) of the Small Business Investment Act of 1958, as amended, regarding that law's Federal override of State usury ceilings, and to its forfeiture and penalty provisions.

DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Environmental Impact Statement:
Kootenai County, Idaho**

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), 42 U.S.C. 4321; 40 CFR 1508.22; 23 CFR 771.123(a), the FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Kootenai County, Idaho near the city of Coeur d'Alene.

FOR FURTHER INFORMATION CONTACT: Victoria Peters, Design Operations Engineer or Christy Darden, Project Manager, Federal Highway Administration, 610 East Fifth Street, Vancouver, Washington 98661, telephone 360-696-7700.

SUPPLEMENTARY INFORMATION: The FHWA, in partnership with the U.S. Forest Service, East Side Highway District, and Idaho Department of Transportation, will prepare an environmental impact statement (EIS) on a proposal to improve Fernan Lake Road also known as Idaho Forest Highway 80. The section proposed for improvement begins at Fernan Village, outside of Coeur d'Alene, and ends at Fernan Saddle for a distance of approximately 17.2 kilometers (10.7 miles).

Fernan Lake Road provides access to Idaho Panhandle National Forest (IPNF). Because it is located close to the population in Coeur d'Alene and has direct access to I-90, Fernan Lake Road has a high vehicle usage. The recreational usage creates a dangerous mix of users including bicyclists, pedestrians, cars, recreational vehicles, timber haulers, trucks and school buses along this substandard paved road.

The existing Fernan Lake Road is narrow, has numerous sharp curves, a failing subgrade, a deteriorating road surface, and a substandard horizontal alignment which limits sight distance ("blind curves"). There are no developed recreational parking areas and very few turnouts along Fernan Lake, so users park along the road,
