Solar Turbines Incorporated; Notice of Issuance of Order

September 29, 2000.

Solar Turbines Incorporated (STI) submitted for filing a rate schedule under which STI will engage in wholesale electric power and energy transactions at market-based rates. STI also requested waiver of various Commission regulations. In particular, STI requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liability by STI.

On September 26, 2000, pursuant to delegated authority, the Director, Division of Corporate Applications, Office of Markets, Tariffs and Rates, granted requests for blanket approval under Part 34, subject to the following:

Within thirty days of the date of the order, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by STI should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Absent a request for hearing within this period, STI is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of the applicant, and compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of STI's issuances of securities or assumptions of liability.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is October 26, 2000.

Copies of the full text of the Order are available from the Commission's Public Reference Branch, 888 First Street, N.E., Washington, D.C. 20426. The Order may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

[Docket No. CP00-469-000]

Tennessee Gas Pipeline Company; Notice of Request For Blanket Authorization

September 29, 2000.

Take notice that on September 21, 2000, Tennessee Gas Pipeline Company (Tennessee), a Delaware corporation, P.O. Box 2511, Houston, Texas 77252, filed in CP00-469-000 a request pursuant to Sections 157.205 and 157.208(f)(2) of the Commission's (Commission) Regulations under the Natural Gas Act, as amended, (18 CFR 157.205 and 157.208(f)(2)) and Tennessee's blanket certificate authorization granted in Docket No. CP82-413-000, 20 FERC ¶ 62,409 (1982), for authorization to increase the maximum allowable operating pressure (MAOP) through an uprate of Tennessee's Mariposa-Humble and Gyp-Hill laterals located in Brooks County, Texas, all as more fully set forth in the request which is on file with the Commission and open to public inspection. The application may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm>. Call (202) 208-2222 for assistance.

Tennessee states that it proposes to increase the MAOPs on Line No. 404A-100 (Mariposa-Humble Line) from 794 to 908 psig and from 795 to 947 psig on Line No. 404B-100 (Gyp-Hill Line) in order to facilitate reliable receipt of natural gas from producers on these laterals. Tennessee indicates that both pipelines are receipt side laterals that connect to Tennessee's parallel mainlines known as Line Nos. 400-1 and 400-2. Tennessee then indicates that the operating pressure of Tennessee's mainline facilities often exceeds the existing MAOP of the

Mariposa-Humble and Gyp-hill lines and for this reason producers can deliver gas in the Tennessee's system only when the operating pressure of the mainlines are lower than the pressure within the supply laterals. Tennessee states that the operating pressure on Tennessee's Line No. 400-1 can range as high as 903 psig and 860 psig on Line No. 400-2. Thus, Tennessee states that it has proposed these uprates so it can consistently and reliably receive natural gas from the affected producers on these lateral lines. Tennessee indicates that the total cost of the uprates is estimated to be from \$5,000 to \$15,000.

Tennessee states that Thomas G. Joyce, Certificates Manager, P.O. Box 2511, Houston, Texas 77252 at (713) 420-2459 can be contacted for any further questions on this application.

Any person or the Commission's Staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the regulations under the Natural Gas Act (18 CFR 157.205), a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Linwood A. Watson, Jr.,
Acting Secretary.
