

Our independent analysis of the issues will be in the EA. Depending on the comments received during the scoping process, the EA may be published and mailed to Federal, state, and local agencies, public interest groups, interested individuals, affected landowners, newspapers, libraries, and the Commission's official service list for this proceeding. A comment period will be allotted for review if the EA is published. We will consider all comments on the EA before we make our recommendations to the Commission.

To ensure your comments are considered, please carefully follow the instructions in the public participation section below.

### Public Participation

You can make a difference by providing us with your specific comments or concerns about the project. By becoming a commentor, your concerns will be addressed in the EA and considered by the Commission. You should focus on the potential environmental effects of the proposal, alternatives to the proposal, and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send two copies of your letter to: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1A, Washington, DC 20426.
- Label one copy of the comments for the attention of Gas Group 1, PJ-11.1.
- Reference Docket No. CP00-434-000.
- Mail your comments so that they will be received in Washington, DC on or before November 3, 2000.

### Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding known as an "intervenor". Intervenor play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide 14 copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rule of

Practice and Procedure (18 CFR 385.214) (see appendix 2). Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

### Federal Energy Regulatory Commission

[Docket No. RP00-455-002]

#### Honeoye Storage Corporation; Notice of Proposed Change in FERC Gas Tariff

October 3, 2000.

Take notice that on September 28, 2000 Honeoye Storage Corporation (Honeoye) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume 1, the following tariff sheet to be effective October 10, 2000:

First Revised Sheet No. 22B

Honeoye states that the purpose of the filing is to establish a new proposed Article XIX to the General Terms and Conditions of its Part 157 gas tariff that affords customers the right to make title transfers of top gas or cushion gas in the Honeoye Storage Field, but limits the

availability of such title transfer authority of gas in place to only upon contract termination. Honeoye further requests that the Commission waive the requirements of Section 154.207 of its regulation so that revised tariff sheet may be made effective October 10, 2000 so that Honeoye may make arrangements to dispose of cushion gas and top gas which remains in the Honeoye gas field after termination of the Providence Gas Company gas storage agreement on March 31, 2000.

Honeoye states that its filing is consistent with the Commission's September 14, 2000 letter order in Docket No. RP00-455-000 which, among other matters, rejected without prejudice Honeoye's proposed tariff provision designed to grant its customers the right to make title transfers to other customers of gas which is held in the Honeoye gas field. The Commission's September 14 letter order found that the title transfer right provided more flexibility to Part 157 customers than is allowed under Commission policy. However, the Commission stated that its rejection of this provision was without prejudice to Honeoye's right to file a tariff provision limiting title transfers to only upon contract termination.

Honeoye states that copies of the filing are being mailed to Honeoye's jurisdictional customers and interested state regulatory agencies.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).
