The purpose of the meeting is to prepare for the forty-fourth session of the Subcommittee on Ship Design and Equipment of the International Maritime Organization (IMO) which is scheduled for March 5-9, 2001, at IMO Headquarters in London, England.

IMO works to develop international agreements, guidelines, and standards for the marine industry. In most cases, these form the basis for class society rules and national standards/regulations. Such an open meeting supports the U.S. Representative to the IMO Subcommittee in developing the U.S. position on those issues raised at the IMO Subcommittee meetings. This open meeting serves as an excellent forum for the public to express their ideas and participate in the international rulemaking process. All members of the public are encouraged to attend or send representatives to participate in the development of U.S. positions on those issues affecting your maritime industry and remain abreast of all activities ongoing within the IMO.

Members of the public may attend this meeting up to the seating capacity of the room. Interested persons may seek information by writing: Mr. Wayne Lundy, U.S. Coast Guard Headquarters, Commandant (G-MSE-3), 2100 2nd
