Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief From the Requirements of Title 49 Code of Federal Regulations Part 236

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroads have petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236 as detailed below.

[Docket No. FRA-2000-7700]

Applicant: Union Pacific Railroad Company, Mr. Lee A. Roach, Director—Operating Practices, 1416 Dodge Street, Room 625, Omaha, Nebraska 68179.

The Union Pacific Railroad Company (UP) seeks relief from the requirements of the Rules, Standard and Instructions, Title 49 CFR, Part 236, §§ 236.566, 236.567, and 236.587, in all UP automatic cab signal (ACS) territory west of Council Bluffs, Iowa and Kansas City, Missouri, to the extent as follows:

Section 236.566—That UP be permitted to operate non-equipped foreign or detour train movements, in ACS territory, by wayside signal indications, at maximum authorized timetable speeds, without establishing an absolute block.

Section 236.567—That UP be permitted to operate failure en route, ACS locomotives, by wayside signal indications, at maximum authorized timetable speeds, without establishing an absolute block.

Section 236.587—That UP be permitted to operate a previously tested ACS equipped locomotive, without another departure test, when the locomotive changes direction more than 24 hours after its initial terminal departure test.

Applicant's justification for relief: To place UP on equal footing with competitors that do not have ACS and are allowed to operate solely as governed by regulations applicable to their wayside signal systems. The application of the referenced regulations serves to impede UP operations and

effectively place UP at a competitive disadvantage compared to competitors that do not have ACS.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and contain a concise statement of the interest of the Protestant in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by the docket number and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PI-401, Washington, D.C. 20590-0001. Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9:00 a.m.–5:00 p.m.) at DOT Central Docket Management Facility, Room PI-401 (Plaza Level), 400 Seventh Street, S.W., Washington, D.C. 20590-0001. All documents in the public docket are also available for inspection and copying on the internet at the docket facility's Web site at <http://dms.dot.gov>.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.

Issued in Washington, D.C. on October 12, 2000.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

Announcement of Selected Fiscal Year 2000 Projects for the Job Access and Reverse Commute Competitive Grant Program

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice.

SUMMARY: The U.S. Department of Transportation's (DOT) Federal Transit Administration (FTA) solicited competitive grants under the Job Access and Reverse Commute grant program, authorized under Section 3037 of the Transportation Equity Act for the 21st Century (TEA-21). The solicitation was announced in the **Federal Register** of Friday, March 10, 2000, Vol. 65, No. 48, pp. 13210-13220. This notice announces the successful applicants for fiscal year (FY) 2000.

FOR FURTHER INFORMATION: Contact the appropriate FTA Regional Administrator for application-specific information and issues (Appendix A). For general program information, contact Doug Birnie, Office of Research Management, (202) 366-1666, email douglas.birnie@fta.dot.gov, or refer to the Job Access and Reverse Commute Competitive Grants Notice, 65 Fed. Reg. 13210 *et seq.*, March 10, 2000. A TDD is available at 1-800-877-8339 (TDD/FIRS). The notice can also be accessed through FTA's web site, [www.fta.dot.gov/wtw].

SUPPLEMENTARY INFORMATION: The Job Access and Reverse Commute grant program is intended to establish an area-wide regional approach to job access challenges through the establishment of an Area-Wide Job Access and Reverse Commute Transportation Plan. Projects derived from this plan support the implementation of a variety of transportation services that may be needed to connect welfare recipients to jobs and related employment activities. All projects funded under the Job Access and Reverse Commute grant program must be derived from this area-wide plan. The Job Access and Reverse Commute Program has two major goals: to provide transportation services in urban, suburban and rural areas to assist welfare recipients and low income individuals in gaining access to employment opportunities; and to increase collaboration among transportation providers, human service agencies, employers, metropolitan planning organizations (MPOs), states, and affected communities and individuals.

Pre-Award Authority: has provided pre-award spending authority for this program which permits successful applicants to incur costs on eligible projects without prejudice to possible Federal participation in the cost of the project or projects. However, prior to exercising pre-award authority, successful applicants must comply with all Federal requirements. Failure to do so will render a project ineligible for FTA financial assistance. Successful applicants are strongly encouraged to consult the appropriate regional office regarding the eligibility of the project for future FTA funds or the applicability of the conditions and Federal requirements. Pre-award spending authority was provided to continue projects previously funded in FY 1999, effective May 7, 2000. All other new projects selected and announced by this notice are likewise granted pre-award spending authority upon issuance of this notice.

Certifications and Assurances Requirements: In accordance with 49 U.S.C. 5323(n), certifications and

assurances have been compiled for the various FTA programs. Before FTA may award a Federal grant, each successful applicant must provide to FTA all certifications and assurances required by Federal laws and regulations applicable to itself and its project. A state providing certifications and assurances on behalf of its prospective subrecipients should obtain sufficient documentation from those subrecipients needed to provide informed certifications and assurances. A successful applicant for funds under the Job Access and Reverse Commute Grant Program will be required to comply with the requirements of the FTA's Annual Certifications and Assurances. It is important that each successful applicant be familiar with all certifications and assurances as they are a prerequisite for receiving FTA financial assistance. All successful applicants are advised to read the entire text of those Certifications and Assurances to be confident of their responsibilities and commitments.

The signature page accompanying the Certifications and Assurances contains the current fiscal year's certifications and, when properly attested to and submitted to FTA, assures FTA that the applicant intends to comply with the requirements for the specific program involved. FTA will not award any Federal assistance until the successful applicant provides assurance of compliance by selecting Category I on the signature page and all other categories applicable to itself and its project.

FTA's fiscal year 2001 Certifications and Assurances will be published in the **Federal Register**. They will also be available on the the World Wide Web at []. Copies may also be obtained from FTA regional offices. Applicants that need further assistance should contact the appropriate FTA regional office (see Appendix A) for further information.

U.S. Department of Labor Certification: As a condition of release of Federal funds for this program, Federal Transit law requires that applicants must comply with 49 U.S.C.

section 5333(b), administered under the Department of Labor's (DOL) Mass Transit Employee Protection Program. These employee protections include the preservation of rights, privileges, and benefits under existing collective bargaining agreements, the continuation of collective bargaining rights, the protection of individual employees against a worsening of their positions related to employment, assurances of employment to employees of acquired mass transportation systems, priority of reemployment, and paid training or retraining. Generally, DOL processes the employee protection certification required under Section 5333(b) in accordance with the procedural guidelines published at 29 C.F.R. 215.3. However, for the Job Access and Reverse Commute Program, DOL has proposed to apply appropriate protections without referral for Job Access and Reverse Commute grant applications serving populations under 200,000 and to utilize the guidelines for Job Access and Reverse Commute grant applications serving populations of 200,000 or more. FTA will submit the grant application to DOL for certification.

Grant funds will NOT be released without DOL certification. Where there are questions regarding the DOL certification process and/or information needed by DOL to obtain a labor certification, successful applicants must contact the appropriate FTA regional office (See Appendix A). Additionally, guidance is provided on the World Wide Web at [<http://www.fta.dot.gov.wtw/labor.htm>].

Completed Application: All successful applicants must now proceed to complete their grant application by fully documenting all the Job Access and Reverse Commute program requirements that were not fully documented when the application was submitted. FTA regional offices will advise applicants by letter of any remaining outstanding items, as well as stipulations specific to the Job Access and Reverse Commute project which need to be addressed and/or fully documented prior to grant approval.

Successful applicants will be notified in writing by the FTA regional offices with further guidance.

Issued on: October 13, 2000.

Nuria I. Fernandez,
Acting Administrator.
