The Shell Producers contend that each of the above-referenced production complexes should qualify under Order No. 639's feeder-line exemption, and that certain of these facilities should qualify under either the single-shipper or shipper-owner exemption in Order No. 639. The Shell Producers also contend that Order No. 639's single-shipper and shipper-owner exemptions require clarification, and request that the Commission find that producer participation in the Minerals Management Service's royalty-in-kind (RIK) program will not cause otherwise applicable Order No. 639 exemptions to terminate.
