DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

Solicitation of Volunteers To Serve as Special Consultants on the Community and Tribal Subcommittee of the ATSDR Board of Scientific Counselors

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Notice.

This notice announces ATSDR's need for special consultants to provide citizens' input on the Community and Tribal Subcommittee (CTS) of ATSDR's Board of Scientific Counselors (BSC).

DATES: Applications should be completed and returned by Friday, November 17, 2000.

BACKGROUND: The CTS provides the BSC with input, recommendations, and advice on ATSDR's community/tribal community involvement practices, programs, and policies from community/tribal members who live near hazardous waste sites or are otherwise affected by hazardous substances in the community environment. The subcommittee was established, at the request of the Assistant Administrator, ATSDR, to provide the agency, through its Board of Scientific Counselors, with a formal vehicle for citizen input.

FOR FURTHER INFORMATION CONTACT: To express interest in serving as a special consultant and obtain additional information, contact: Sandee Coulberson, Designated Federal Official, CTS, ATSDR (E-56), 1600 Clifton Road, NE, Atlanta, GA 30033 (404) 639-6002 (Direct Line) Toll-free 1-888-422-8737.

SUPPLEMENTARY INFORMATION: ATSDR conducts public health-related activities at hazardous waste sites and releases, pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund) (42 U.S.C. 9601 *et seq.*). ATSDR established a BSC which is chartered under the Federal Advisory Committee Act (5 U.S.C. app.). In 1994, the chair of the BSC, ATSDR, appointed three community/tribal representatives as consultants to ensure that its deliberations included the views of community and tribal members who live around Superfund and other hazardous waste sites and are representatives of groups that work at local, regional, or national locations with these affected communities. To supplement the work of these consultants, nine additional community and tribal representatives were added. Four members of the BSC serve on this Subcommittee, one of which was appointed as chair.

The Community Tribal Subcommittee's objective is to provide the BSC, ATSDR, with the views and recommendations of community and tribal representatives on ATSDR's community involvement programs, practices, policies, and other relevant issues impacting communities and tribes who live near Superfund and hazardous waste sites. The Subcommittee will review ATSDR's community involvement programs, and policies; provide advice, findings, and recommendations to the Board on these issues; and bring broad-based community and tribal involvement issues to the attention of the Board of Scientific Counselors.

The Subcommittee will present findings, advice, and recommendations to the full Board. The BSC will discuss and review reports of the Subcommittee and may forward recommendations to ATSDR for action. The Community/Tribal Subcommittee will periodically meet and/or hold conference calls.

A group consisting of special consultants, CTS Chair and the DFO will review the applications and develop a short list to be recommended for consideration. The Agency, in consultation with the BSC chair, will then select the four community representatives to serve as special

consultants to the CTS, with special consideration given to the recommended slate. The special consultants are not members of the CTS, and therefore, do not have voting privileges.

Accordingly, any person who lives in a community affected by an NPL or other hazardous waste site, or is a representative of a group that works at local, regional, or national locations with these communities, who wishes to be considered for serving as a special consultant on this Subcommittee should write or call the ATSDR contact person listed above to express interest and obtain additional information.
