

CLF will monitor, as necessary, the frequency and duration of a credit union's CLF borrowings to make certain that the credit union is taking appropriate measures to diminish reliance on CLF advances and verify that a more serious liquidity problem does not exist. Borrowers are expected to initiate appropriate actions to restore adequate liquidity within a reasonable period of time. Facility loan officers, at their discretion, may require a borrowing credit union to prepare a liquidity restoration plan to detail the action and time required to restore its net funds position to the point where it is no longer dependent on CLF advances.

SUPPLEMENTARY INFORMATION:

Title: Compliance and Enforcement under the Indian Gaming Regulatory Act.

OMB Number: 3141-0001.

Abstract: The Indian Gaming Regulatory Act (25 U.S.C. 2701 *et seq.*)

[IGRA] governs the regulation of gaming on Indian lands. Although the IGRA places primary responsibility with the tribes for regulating gaming, Section 2706 (b) of the Act directs the NIGC to monitor gaming conducted on Indian lands on a continuing basis. The IGRA authorizes the NIGC to access and inspect all papers, books and records relating to gaming conducted on Indian lands. In accordance with this statutory responsibility, 25 CFR 571.7 requires Indian gaming operations to keep permanent financial records. 25 CFR 571.12 and 571.13 require, respectively, an annual independent audit of a tribe's gaming operations and submission of this audit to the NIGC. The NIGC uses this information to fulfill its statutory responsibility to monitor Indian gaming. Section 2710 of the IGRA requires tribes to conduct background investigations on key employees and primary management officials involved in class II and class III gaming. 25 CFR 556 and 558 require tribes to perform each investigation using information such as name, address, previous employment records, previous relationships with either Indian tribes or the gaming industry, and licensing relating to those relationships, any convictions and any other information a tribe feels is relevant to the employment of the individuals being investigated. Tribes are then required to submit to the NIGC a copy of the completed employment applications and investigative reports and licensing eligibility determinations on key employees or primary management officials before issuing gaming licenses to those persons. The NIGC will use this information in conducting its review of the suitability determinations and will advise the tribe if it disagrees with any particular determination.

Estimated Burden: The reporting burden for this collection of information is estimated to be 40 hours per response for access and inspection of records, 100 hours for the preparation and submission of an annual audit, and 400 hours annually, on the average, for each tribe for submission of matters related to background information and licensing.

Respondents: Indian tribes conducting gaming operations.

Estimated Number of Respondents: 220.

Estimated Annual Responses: 30,640.
Estimated Total Annual Burden on Respondents: 127,800 hours.

Title: Privacy Act Procedures.

OMB Number: 3141-0002.

Abstract: To implement the IGRA, it is necessary for the NIGC to collect, maintain and use personal information gathered on certain individuals. Under
