Extension of Comment Period

On June 6, 2000, the FAA published Amendment No. 187-11, Fees for FAA Services for Certain Flights (65 FR 36002). The FAA requested that comments to that document be submitted on or before October 4, 2000. On September 29, 2000 the FAA extended the comment period to October 27, 2000 (65 FR 59713). This was done in response to the significance and international implications of this IFR, as expressed in the comments, and because the first billing under the rule had recently occurred.

On October 18, 2000, the Congress passed legislation (S. 2412) that directly affects the issues in this case and which may cause those members of the public who have previously provided comments in this rulemaking to provide additional comments. This legislation has been sent to the President for signature.

Also, in response to the comments, the FAA has had prepared, and will soon make available in the docket, additional accounting and economic information relevant to the development of the Overflight fees.

The FAA has determined that an opportunity to comment on the recently passed legislation and the additional information is appropriate for development of the Final Rule as required by 49 U.S.C. 45301. Therefore, the FAA is extending the comment period an additional 60 days until December 26, 2000 to allow for an opportunity for the public to comment further on this rulemaking.

The FAA determines that extending the comment period is in the public interest and that good cause exists for taking this action. Accordingly, the comment period for Amendment No. 187-11 is extended until December 26, 2000.

Issued in Washington, DC, October 23, 2000.

Assistant Administrator for Financial Services.
