

that the trials meet the qualifying criteria in order to maintain Medicare coverage of routine costs. This certification process will only affect the future status of a trial and will not be used to retroactively change the earlier deemed status."

The Panel will be developing criteria for identifying other trials that are likely to have the seven desirable characteristics of clinical trials. (From HCFA's Final National Coverage Decision posted on HCFA's website (<http://www.hcfa.gov/quality/8d2.htm>).

2. Purpose

AHRQ is holding this second meeting to ensure that all interested parties have adequate time to provide comments and pertinent information that would contribute to defining specific and unambiguous qualifying criteria for identifying clinical trials appropriate for Medicare coverage. We are soliciting comments about what specific qualifying criteria might be used to select trials that are likely to have the desirable characteristics of scientifically sound clinical trials identified by HCFA. The criteria should be easily verifiable, should not require a detailed and expert trial by trial review, and, where possible, be dichotomous (that is, objective yes/no responses). Some examples might be:

- Is the trial approved by an investigational review board (IRB)?
- Does the trial have a written protocol?
- Has the trial been approved by a Federal agency?
- Has the trial received and external, non-Federal funding?
- Has the trial been reviewed by any external, non-Federal group?
- Does a data safety and monitoring board provide independent oversight of the trial?

AGRQ is also interested in receiving information on the availability of relevant literature (citations or copies if possible) that might assist the Panel in its formation of the qualifying criteria.

Agenda

The meeting will begin at 9 a.m. and continue through 1 p.m. If more requests to make oral statements are received than can be accommodated at this meeting, the chair person will allocate speaking time in a manner that attempts, to the extent possible, to have a range of information, findings, and views presented orally. Those who cannot be granted speaking time because of time constraints are assured that their written comments will be considered along with other evidence during the course of further discussions and report preparation.
