

requesting that for the year 2003 and beyond, all NDA holders for MDIs to be produced using EUAs, submit an application to EPA for EUAs as specified in this notice. Please note, EPA will also consider applications submitted jointly by contract fillers. In the case where a contract filler produces a portion of an NDA holder's CFC MDIs, the contract filler and the NDA holder should work together to determine the total amount of CFCs necessary to produce the NDA holder's entire product line of CFC MDIs. The NDA holder should also provide an estimate of how the CFCs would be split between the contract filler and the NDA holder in the allocation year. This estimate will be used only as a basis for determining the nomination amount, and may be adjusted prior to allocation of EUAs.

Since the U.S. government can not forward incomplete or inadequate nominations to the Ozone Secretariat, it is important for applicants to provide all information requested in the Handbook, including the information specified in the supplemental research and development form (page 43). The accounting framework matrix in the Handbook titled "Table IV: Reporting Accounting Framework for Essential Uses Other Than Laboratory and Analytical" requests data for the year 2000 on the amount of ODS exempted for an essential use, the amount acquired by production, the amount acquired by import, the amount on hand at the start of the year, the amount available for use in 2000, the amount used for the essential use, the quantity contained in exported products, the amount destroyed, and the amount on hand at the end of the year. Because the data necessary to complete Table IV will not be available until after January 1, 2001, companies should not include this chart with their EUA applications in response to this notice. EPA plans to send letters to each essential use applicant requesting the information in Table IV in the first 2 weeks of January 2001. Companies will have only fourteen days in which to respond since EPA must compile companies' responses to complete the U.S. CFC Accounting Framework for submission to the Parties to the Montreal Protocol by the end of January.

EPA anticipates that the 2001 review by the Parties of MDI essential use requests will focus extensively on research efforts underway to develop alternatives to CFC MDIs, on education programs to inform patients and health care providers of the CFC phaseout and the transition to alternatives, and on steps taken to minimize CFC use and emissions including efforts to recapture

or reprocess the controlled substance. Accordingly, applicants are strongly advised to present detailed information on these points, including the scope and cost of such efforts and the medical and patient organizations involved in the work. Applicants can strengthen their exemption requests by submitting a complete set of education materials, including copies of printed, electronic or audio-visual tools. Applicants are given notice that exemption requests without adequate information on research and education will not be considered complete.

Applicants should submit their exemption requests to EPA as noted in the ADDRESSES section at the beginning of today's notice.

Pesticide Program Dialogue Committee (PPDC): Inert Disclosure Stakeholder Workgroup; Open Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: This notice announces a conference call meeting of the Inert Disclosure Stakeholder Workgroup. The workgroup was established to advise the Pesticide Program Dialogue Committee on ways of making information on inert ingredients more available to the public while working within the mandates of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and related Confidential Business Information concerns.

DATES: The meeting will be held by conference call on Wednesday, November 8, 2000 from 3:00 pm to 6:00 pm EST.

ADDRESSES: Members of the public may listen to the meeting discussions on site at: Crystal Mall #2 (CM #2), 1921 Jefferson Davis Highway, Arlington, VA; conference Room 1123. Seating is limited and will be available on a first come first serve basis.

FOR FURTHER INFORMATION CONTACT: By mail: Cameo Smoot, Office of Pesticide Programs (7506C), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, telephone: (703) 305-5454. Office locations: 11th floor, CM #2, 1921 Jefferson Davis Highway, Arlington, VA. E-mail smoot.cameo@epa.gov.

SUPPLEMENTARY INFORMATION: The Inert Disclosure Stakeholder Workgroup is composed of a participants from the following sectors: environmental/public interest and consumer groups; industry and pesticide users; Federal, State and local governments; the general public; academia and public health organizations.

The Inert Disclosure Stakeholder Workgroup, will advise the EPA through the Pesticide Program Dialogue Committee (PPDC), on potential measures to increase the availability to the public of information about inert ingredients (also called "other ingredients") under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Among the factors the workgroup has been asked to consider in preparing its recommendations are: existing law regarding inert ingredients and Confidential Business Information (CBI); current Agency processes and policies for disseminating inert ingredient information to the public, including procedures for the protection of CBI; informational needs for a variety of stakeholders; and business reasons for limiting the disclosure of inert ingredient information.

The Inert Disclosure Stakeholder Workgroup meeting is open to the public. Written public statements are welcome and should be submitted to the OPP administrative docket OPP-00439A. Any person who wishes to file a written statement can do so before or after the conference call. These statements will become part of the permanent file and will be provided to the Workgroup members for their information.

Proposed National Action Plan For Level 1 Pesticide; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has developed a draft National Action Plan to address the remaining risks to the Level 1 priority Persistent, Bioaccumulative, and Toxic (PBT) pesticide pollutants. This proposed National Action Plan covers the chemical compounds: Aldrin, Dieldrin, Chlordane, DDT, Mirex and Toxaphene. These six pesticides are highly chlorinated, persistent organic pesticides that were once widely used in large quantities in the United States. Because of evidence supporting the adverse environmental and human health effects of these substance, including their probable carcinogenicity, the pesticide use of all of the Level 1 pesticides were canceled in the U.S. in the 1970's and 80's. Current data substantiate that these Level 1 pesticides are still ubiquitous in the environment, and at concentrations that may be of concern for both humans and wildlife. This plan, developed

pursuant to the Agency's Multimedia Strategy for Priority PBT Pollutants, addresses the remaining risks. This Notice announces the availability of the proposed Pesticide national Action for public review and comment.

DATES: Comments, identified by docket control number OPPTS-00299, must be received on or before December 1, 2000.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the **SUPPLEMENTARY INFORMATION.** To ensure proper receipt by EPA, it is imperative that you identify docket control number OPPTS-00299 in the subject line on the first page of your response.
