

Operating License No. DPR-46 for the Cooper Nuclear Station, located in Nemaha County, Nebraska.

The proposed amendment would have revised the Technical Specifications to correct the method by which the Standby Gas Treatment System heaters are tested.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on July 14, 1999 (64 FR 38030). However, by letter dated September 29, 2000, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated June 8, 1999, and the licensee's letter dated September 29, 2000, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 26th day of October 2000.

For the Nuclear Regulatory Commission.

Mohan C. Thadani,

Senior Project Manager, Section 1, Project Directorate IV & Decommissioning, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

[Docket No. 50-328]

Tennessee Valley Authority; Notice of Withdrawal of Application for Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Tennessee Valley Authority (TVA) to withdraw its June 7, 1999, application for proposed amendments to Facility Operating Licenses No. DPR-79 for the Sequoyah Nuclear Plant (SQN), Unit 2, located in Hamilton County, Tennessee. Notice of Consideration of Issuance of of this amendment was published in the **Federal Register** on July 28, 1999, (64 FR 40907).

The purpose of the licensee's amendment request was to revise the Technical Specifications (TS) to increase the maximum allowed specific activity of the primary (reactor) coolant

from 0.35 microcuries/gram dose equivalent Iodine-131 (I-131) to 1.0 microcuries/gram dose equivalent I-131 for the Unit 2 Cycle 10 core. The change for Unit 2 back to 1.0 microcuries/gram (the previous TS limit) was to have been a provisional allowance to provide operational flexibility with respect to the reactor coolant specific activity because an unexpected increase in the specific activity associated with I-131 occurred during startup following the previous refueling outage due presumably to minor fuel clad leakage.

By letter dated October 17, 2000, TVA withdrew the proposed change on the basis that reactor coolant dose equivalent I-131 activity had not closely approached the current TS limit and was not expected to before the refueling outage that commenced on October 22, 2000.

For further details with respect to this action, see the application for amendments dated August 30, 1999, and TVA's letter dated October 17, 2000, which withdrew the application for the license amendment.

These Documents may be examined, and/or copied for a fee, at the Commission's Public Document room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 26th day of October 2000.

For the Nuclear Regulatory Commission.

Ronald W. Hernan,

Senior Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-1-P

DEPARTMENT OF ENERGY

Nuclear Regulatory Commission

[Docket Nos. 50-327 and 50-328]

Tennessee Valley Authority; Notice of Withdrawal of Application for Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Tennessee Valley Authority (TVA) to withdraw its August 30, 1999, application for proposed amendments to Facility Operating Licenses Nos. DPR-77 and DPR-79 for the Sequoyah Nuclear Plant, Units 1 and 2, located in Hamilton County,

Tennessee. Notice of Consideration of Issuance of this amendment was published in the **Federal Register** on October 6, 1999 (64 FR 54382).

The proposed amendments would have revised the facility technical specifications (TS) by adding a Section 3.0.7 to address the use of interim provisions upon the discovery of an unintended TS action.

Subsequently, by letter dated October 17, 2000, TVA withdrew the proposed amendment application on the basis that approval of the amendment was unlikely because of legal concerns on the part of the Commission.

For further details with respect to this action, see the application for amendments dated August 30, 1999, and the TVA's letter dated October 17, 2000, which withdrew the application for license amendments.

These Documents may be examined, and/or copied for a fee, at the Commission's Public Document room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 27th day of October 2000.

For the Nuclear Regulatory Commission.

Ronald W. Hernan,

Senior Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

THE PEACE CORPS

Agency Information Collection Under Review by the Office of Management and Budget

AGENCY: Peace Corps.

ACTION: Notice of submission for OMB review, comment request.

SUMMARY: The Peace Corps has submitted an information collection to the Office of Management and Budget for review under the provisions of the Paperwork Reduction Act of 1995. The forms PC 1789 Health Status Review and PC 1790 Report of Medical Exam are required under the Peace Corps Act for Volunteer application. No comments were received in response to the Peace Corps' earlier **Federal Register** Notice (July 20, 2000, Volume 65, Number 140 at page 45117). The Peace Corps is not proposing any changes to the PC 1789 or PC 1790.
