SUPPLEMENTARY INFORMATION:

I. Background

The Deficit Reduction Act of 1984 established an income and eligibility verification system for the exchange of information among State agencies administering specific programs. The programs are: Aid to Families with Dependent Children, Medicaid, Food Stamps, Supplemental Security Income, Unemployment Compensation and any State program approved under Title I, X, XIV, or XVI of the Social Security Act. Under the Act, programs participating must exchange information to the extent it is useful and productive in verifying eligibility and benefit amounts to assist in the child support program and the Secretary of Health and Human Services in verifying eligibility and benefit amounts under Titles II and XVI of the Social Security Act.

II. Review Focus

The Department of Labor is particularly interested in comments which:
 • Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;
 • Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
 • Enhance the quality, utility, and clarity of the information to be collected; and
 • Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
