### Office of the Secretary

#### Notice of Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q during the Week Ending September 22, 2000

The following Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits were filed under Subpart Q of the Department of Transportation's Procedural Regulations (See 14 CFR 302.1701 et. seq.). The due date for Answers, Conforming Applications, or Motions to Modify Scope are set forth below for each application. Following the Answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

*Docket Number:* OST-2000-7956.

*Date Filed:* September 20, 2000.

*Due Date for Answers, Conforming Applications, or Motion to Modify Scope:* October 11, 2000.

*Description:* Application of Southeast Airlines, Inc. ("Southeast") pursuant to 49 U.S.C. 41102 and Subpart Q, applies for a certificate of public convenience and necessity authorizing Southeast to provide chartered foreign air transportation of persons, property and mail between any point or points in the United States, directly and via any intermediate point or points, and any point or points in the countries listed in Appendix A, and beyond to any point or points in third countries. Southeast also requests authority to integrate the service it provides under the certificate with its other authorized services, consistent with all applicable international agreements. Southeast also requests authority to add two additional DC-9 aircraft to its existing fleet of two.

#### Advisory Circular 25.905-1, Minimizing the Hazards From Propeller Blade and Hub Failures

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of issuance of advisory circular.

**SUMMARY:** This notice announces the issuance of Advisory Circular (AC) 25.905-1, Minimizing the Hazards from Propeller Blade and Hub Failures. The AC describes methods acceptable to the Administrator for showing compliance with the airworthiness standards for propeller installations on transport category airplanes. The guidance provided in the AC supplements the engineering and operational judgment that must form the basis of any compliance findings on design precautions to minimize the hazards to an airplane if a propeller blade fails or is released by a hub failure.

**DATES:** Advisory Circular 25.905-1 was issued on September 27, 2000, by the Manager of the Transport Airplane Directorate, Aircraft Certification Service, Federal Aviation Administration.

**HOW TO OBTAIN COPIES:** You can get a paper copy of AC 25.905-1 by writing to U.S. Department of Transportation, Subsequent Distribution Center, SVC-121.23, Ardmore East Business Center, 3341 Q 75th Avenue, Landover, Maryland 20785. You also can find the AC on the Internet at <http://www.faa.gov/avr/air/airhome.htm>, at the link titled "Advisory Circulars" under the "Available Information" drop-down menu.

**FOR FURTHER INFORMATION CONTACT:** For technical issues, contact Michael Dostert, FAA, Transport Airplane Directorate, Aircraft Certification Service, Propulsion/Mechanical Systems Branch, ANM-112, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (425) 227-2132; fax (425) 227-1320; e-mail [mike.dostert@faa.gov](mailto:mike.dostert@faa.gov).

For other information contact: Jill DeMarco, FAA, Transport Airplane Directorate, Program Management Branch, ANM-114, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (425) 227-1313; fax (425) 227-1320.

#### SUPPLEMENTARY INFORMATION:

##### Discussion of Comments

On March 31, 2000, the FAA issued a notice of the availability of proposed

Advisory Circular (AC) 25.905-X, "Minimizing the Hazards from Propeller Blade and Hub Failures." That notice was published in the **Federal Register** on April 11, 2000 (65 FR 19423), and requested public comment on the proposed AC document. Only one commenter filed comments to the proposed AC.

The commenter points out that, in the discussion of the "Purpose" of the AC, the FAA stated that the AC does not address hazards associated with unbalance created by blade release or similar failures. However, unbalance vibratory forces could be significant and can interfere with the required corrective actions. The commenter asks why the FAA did not cover this issue in the AC, and if we will address it in another AC.

We agree that imbalance is a critical issue following a propeller or hub failure. Structural issues and the flightcrew's ability to cope with the failure are of concern. We are considering separate action to address these issues. We have asked the Aviation Rulemaking Advisory Committee (ARAC) to review these issues and provide recommendations for further action.

Issued in Renton, Washington, on October 27, 2000.

**John J. Hickey,**

*Manager, Transport Airplane Directorate, Aircraft Certification Service.*

#### Agency Information Collection Activity Under OMB Review

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Requests (ICR) abstracted below have been forwarded to the Office of Management and Budget (OMB) for extension of the currently approved collections. The ICR describes the nature of the information collection and its expected burden. The Federal Register Notice with a 60-day comment period soliciting comments on the following collections of information was published on June 30, 2000, (65 FR, page 40716).
